## Schedule H General Instructions

This schedule must be used when the corporation files as part of a consolidated group for federal purposes. Use extra pages if necessary to list all companies included in the consolidated federal return.

Iowa Schedule H has three parts:

- $\quad$ Schedule H 1 calculates the federal tax deduction/refund (Tax years beginning before January 1, 2022 only).
- Complete Schedule H2 (filing status 2 and 3 only) to include the income statement information for each company included on the consolidated federal return as filed with the IRS, regardless of their lowa filing status. See instructions that follow Schedule H3.
- $\quad$ Schedule H 3 (filing status 2 and 3 only) is used to reconcile the consolidating income statements (Schedule H2) with the consolidated federal return. See instructions that follow Schedule H3.

## Schedule H1 Instructions

Tax years beginning before January 1, 2022 only
List in column A the federal taxable income after the net operating loss (NOL) and special deductions or in column B the federal taxable loss for each company computed as if a separate federal corporation income tax return was filed. Normally, this would be from the federal 1120, line 30.

Complete lines 29 through 33 of Schedule H1 as follows:
Line 29: Show federal taxable income of the company(s) reported on this lowa return (see instructions for formula below).
Line 30: Enter the total from line 26, column A.
Line 31: Enter federal tax from the federal 1120.
Line 33: The allowed federal tax deduction is $50 \%$ of the federal income taxes paid or accrued during the tax year, to the extent the payment is for a tax year beginning prior to January 1, 2021. The deduction should be computed using one of the following methods.

Accrual basis taxpayers should determine the total tax shown on page 1 of federal form 1120 and use the formula shown below.

Cash basis taxpayers should compute the sum of federal taxes paid during the current tax period and federal motor fuel tax credits applied against the tax liability for the current tax period for tax years beginning before January 1, 2021, less any federal refunds received during the current tax period to the extent the refund was for federal taxes deducted on an lowa return in a year beginning prior to January 1, 2021 using the formula shown below on each period producing payments or refunds.

If your company files a consolidated lowa return, the numerator in the above equation is the sum of the incomes of the profit companies included in the consolidated lowa return. This formula is referred to as the "revenue producer's formula." The federal tax deduction is reported on IA 1120, line 5.

If the federal consolidated return reports a NOL which is carried back, the federal refund is computed substituting loss companies in place of taxable income companies in the above formula. This formula is known as the "loss producer's formula." The federal refund is reported on IA 1120, line 2, in the loss year.
