SSN or FEIN

## Schedule H General Instructions

This schedule must be used when the corporation files as part of a consolidated group for federal purposes. Use extra pages if necessary to list all companies included in the consolidated federal return.

Iowa Schedule H has three parts:

- $\quad$ Schedule H1 calculates the federal tax deduction/refund (tax years beginning before January 1, 2022, only).
- Complete Schedule H2 (consolidated federal filers only) to include the income statement information for each company included on the consolidated federal return as filed with the IRS, regardless of their lowa filing status. See instructions that follow Schedule H3.
- Schedule H3 (consolidated federal filers only) is used to reconcile the consolidating income statements (Schedule H 2 ) with the consolidated federal return. See instructions that follow Schedule H3.

## IA Corporation Schedule H1 Instructions

Tax years beginning before January 1, 2022, only. List in column A the federal taxable income after the net operating loss (NOL) and special deductions or in column B the federal taxable loss for each company computed as if a separate federal corporation income tax return were filed. Normally, this would be from the federal 1120, line 30.

Line 29 - Show federal taxable income of the company(s) reported on this lowa return (see instructions for formula below).

Line 30 - Enter the total from line 26 , column A.
Line 31 - Enter federal tax from the federal 1120.
(Separate Company
Federal Taxable Income

Sum of All Positive Companies $\div$ Included in the Consolidated Taxable Income Statements)

If your company files a consolidated lowa return, the numerator in the above equation is the sum of the incomes of the profit companies included in the consolidated lowa return. This formula is referred to as the "revenue producer's formula." The federal tax deduction is reported on IA 1120, line 5.

Total Tax Reported
on the
Consolidated $\times 50 \%=$ Federal Tax Federal Return $\times 50 \%=$ Deduction (IA 1120, Schedule H 1 , line 31)

Line 33 - The allowed federal tax deduction is $50 \%$ of the federal income taxes paid or accrued during the tax year, to the extent the payment is for a tax year beginning prior to January 1, 2021. The deduction should be computed using one of the following methods.

Accrual basis taxpayers should determine the total tax shown on page 1 of federal form 1120 and use the formula shown below.

Cash basis taxpayers should compute the sum of federal taxes paid during the current tax period and federal motor fuel tax credits applied against the tax liability for the current tax period for tax years beginning before January 1, 2021, less any federal refunds received during the current tax period to the extent the refund was for federal taxes deducted on an lowa return in a year beginning prior to January 1, 2021, using the formula shown below on each period producing payments or refunds. $\times$

If the federal consolidated return reports a NOL that is carried back, the federal refund is computed substituting loss companies in place of taxable income companies in the above formula. This formula is known as the "loss producer's formula." The federal refund is reported on IA 1120, line 2, in the loss year.

## IA Corporation Schedule H2 and H3 Instructions

## Schedule H2 Instructions

All corporations who file a separate or consolidated lowa return and are part of a consolidated group for federal purposes must file schedules H2 and H3. Use extra pages if necessary to list all companies included in the consolidated federal return.
For each company included on the consolidated federal return, provide the name, FEIN, and North American Industry Classification System Code (NAICS).

Check "Yes" for each company that files a separate lowa corporation income tax return or is part of a consolidated lowa corporation income tax return.

Enter the income statement information for each company included on the consolidated federal return as filed with the IRS. Include all companies that are part of the consolidated federal return regardless of their lowa filing status, or their inclusion on the IA Corporation Schedule M.

Schedule H3 Instructions

Schedule H3 is used to reconcile the information provided on lowa Schedule H 2 with the consolidated federal return filed with the IRS as shown on pages 1-5 of the consolidated federal return.

The "Consolidated Return" column is calculated by starting with the "Combined" column, subtracting the "Eliminations" column, and adding the "Adjustments" column. Because the "Eliminations" column is always subtracted, eliminations that increase income should be entered as (negative) numbers in the "Eliminations" column. Because the "Adjustments" column is always added, adjustments that decrease income should be entered as (negative) numbers in the "Adjustments" column.

Enclose all intercompany eliminations and adjustments used to arrive at the consolidated federal return amounts.

Note: You must enclose pages $1-5$ of your consolidated federal return as filed with the IRS.
