Legislative Update

The 2017 Legislative Summary is available online only.

Legislative changes are incorporated in the information below.

For tax year 2017, Iowa has not adopted federal Internal Revenue Code changes regarding the determination of income that occurred after January 1, 2015. This page may be updated pending future legislation. For more information, see our <https://tax.iowa.gov/impact-non-conformity-2016-IRC> page.

SPECIFIC LINE INFORMATION

Step 4

While Social Security benefits are not subject to Iowa income tax, the Reportable Social Security benefit amount is included in the alternate tax calculation worksheet and the tax reduction worksheet, as well as the calculation of whether sufficient income was earned in order to file an Iowa return. See the Social Security Worksheet under Step 4 of the instructions.

Step 5

Line 14 Bonus Depreciation / Section 179 – Iowa has not coupled with the 50% bonus depreciation provisions for assets acquired in 2017. The section 179 limit for Iowa for tax year 2017 is \$25,000. The phase-out threshold is \$200,000.

Step 6

Line 23 Iowa Capital Gain Deduction – If any deduction is reported on this line, the applicable Capital Gain Deduction form (IA 100A – IA 100F) must be completed and included with the return. Each eligibility category has a separate form.

Line 24 Adjustments

- College Savings Iowa or Iowa Advisor 529 Plan: The deductible amount for tax year 2017 cannot exceed \$3,239 per beneficiary.
- Iowa ABLE (Achieving a Better Life Experience) Savings Plan Trust: Contributions to a qualified ABLE savings plan trust, on behalf of a designated beneficiary, are deductible from Iowa individual income tax up to a maximum amount, \$3,239.

Step 7

Line 33 Additional Federal Tax Paid in 2017

FICA Amount - FICA payments for tax year 2017 in excess of \$7,886.00 for Social Security tax for each person can be deducted as a federal tax payment.

Step 8

Line 37 Deduction

Standard Deduction for tax year 2017:

Filing Status 1: \$2,000

Filing Status 3 & 4: \$2,000 for each spouse

Filing Status 2, 5 or 6: \$4,920

Itemized Deduction

There is a limitation on the amount of itemized deductions that can be claimed for certain high-income taxpayers. The calculation is done on the Iowa Itemized Deductions Worksheet, form IA104.

Step 9

Line 52 Other Nonrefundable Iowa Credits – The Geothermal Heat Pump Tax Credit is not available for installations occurring in 2017. However, installations may be eligible for the new Geothermal Tax Credit; complete the IA 140.

Line 57 Reminder - Checkoffs

- Fish & Wildlife Fund
- Iowa State Fair Foundation
- Combined: Veterans Trust Fund / Volunteer Firefighter Preparedness Fund
- Child Abuse Prevention Program Fund

Step 10

Line 62 Other Refundable Credits – To make a claim to the adoption tax credit equal to the first \$5,000 of unreimbursed expenses related to an adoption per each child adopted in Iowa, the IA 177 must be completed and included with the return.

Line 64 Reserved & Line 65 Taxpayers Trust Fund Tax Credit - Both lines will be zero.

Step 11

Paper filers now have the option to have their refund direct deposited to their bank account by entering their account information in Step 11.

Step 12

Line 75 Interest Rate 2018

6% per year; 0.5% per month

Step 13

Power of Attorney Form: The Federal Power of Attorney form or a Military Power of Attorney is accepted by the Iowa Department of Revenue. To be valid, the Federal or Military form must include a statement that it is applicable for Iowa purposes at the time it is executed. In the case of a previously executed Federal or Military Power of Attorney subsequently revised to apply for Iowa purposes, it must contain a written statement that indicates it is being submitted for use with State of Iowa forms and the statement needs to be initialed by the taxpayer.

Iowa allows married taxpayers to file one Iowa Power of Attorney form on behalf of both spouses. The IRS requires separate Power of Attorney forms for each spouse. If the Federal Power of Attorney is being used for Iowa purposes by married taxpayers, both federal forms must be submitted to Iowa.

FILING STATUS

Your filing status on the Iowa return is usually the same filing status as on your federal return. However, married taxpayers have the option of either filing jointly (status 2), married filing separately on a combined return (status 3) or married filing separate returns (status 4) on the Iowa return, no matter how they filed on the federal return.

If you and your spouse both have income, you may pay less tax by filing status 3 or 4.

Status 1. Single

Check filing status 1 if you were unmarried, divorced, or legally separated on December 31, 2017, and do not meet the requirements for any other filing status. All single filers must answer the question, "Were you claimed as a dependent on another person's Iowa return?"

If this question is not answered, you will be taxed as a dependent.

Status 2. Married Filing Joint Return

Check filing status 2 if you are married and want to report your income, deductions, and exemptions together in one column. Both spouses must sign the return.

If married taxpayers file a joint return

Both spouses are jointly and severally liable for the total tax due on the return, except when one spouse is considered to be an innocent spouse under criteria established pursuant to section 6015 of the Internal Revenue Code.

Please note:

- a. You must have been married on December 31, 2017, or
- b. If your spouse died during 2017 and you did not remarry during the year, you may file status 2, 3, or 4.

Nonresidents and Part-Year Residents of Iowa...

...who are married may file status 2, 3, or 4 for their Iowa return even if only one spouse had income from Iowa sources.

Does your spouse have debts...

...that may be automatically paid (offset) with your refund? Be sure to read our [Refunds May Be Used to Pay Debt](#) information.

Status 3. Married Filing Separately on Combined Return

Check filing status 3 if you are married and want to file separately on one return. If you receive a refund, it will be made payable to both spouses. Both spouses must sign the return.

If married taxpayers file separately on a combined return

Both spouses are jointly and severally liable for the total tax due on the return, except when one spouse is considered to be an innocent spouse under criteria established pursuant to section 6015 of the Internal Revenue Code.

Does your spouse have debts...

...that may be automatically paid (offset) with your refund? Be sure to read our [Refunds May Be Used to Pay Debt](#) information.

Taxpayers using filing status 3 or 4 may have to prorate (divide) certain items between them on the return. These items include federal income tax refunds, additional federal income tax paid, etc. This information is included with instructions for most lines of the return.

Nonresidents and Part-Year Residents of Iowa...

...who are married may file status 2, 3, or 4 for their Iowa return even if only one spouse had income from Iowa sources.

Status 4. Married Filing Separate Returns

Check filing status 4 if you and your spouse file separate tax returns. Write your spouse's Social Security Number, name, and net income in the spaces provided at the top of the return

in Step 2. The processing of refunds, alternate tax calculations, and/or low-income exemptions will be delayed without this information or supporting schedules.

Taxpayers using filing status 3 or 4 may have to prorate (divide) certain items between them on the return. These items include federal income tax refunds, additional federal income tax paid, etc. This information is included with instructions for each line of the return.

Nonresidents and Part-Year Residents of Iowa...

... who are married may file status 2, 3, or 4 for their Iowa return even if only one spouse had income from Iowa sources.

Married Separate Filers:

Married taxpayers filing married filing status 3 or 4 must use the combined income of both spouses in determining eligibility for exemption from tax.

If either spouse has a net operating loss that is carried back or forward, then the other spouse cannot use the low income exemption. If the spouse with the net operating loss chooses not to carry the loss back or forward, then the other can claim the low income exemption. A statement must be attached to the return saying that the spouse with the net operating loss will not carry it back or forward.

If one spouse itemizes deductions, then both spouses must itemize deductions, even if separate Iowa returns are filed.

Status 5. Head of Household

Check filing status 5 if you are filing as head of household for federal income tax purposes. If you have a qualifying person (as defined by the Internal Revenue Service) living with you who you did not claim as a dependent on this return, enter the person's name and Social Security Number. If you are filing as a qualifying widow(er) with a dependent child for federal income tax purposes, you cannot file as head of household on your Iowa return.

Check filing status 6 if you meet the federal filing requirements for qualifying widow(er).

REPORTABLE SOCIAL SECURITY BENEFITS

Iowa does not tax Social Security benefits. While Social Security benefits are excluded from income when computing tax, some Social Security benefits are included as income in determining whether a taxpayer has sufficient income to file an Iowa return, and are included as income for purposes of computing the alternate tax on line 39.

NOTE: This also affects you if you are single and use the Tax Reduction Worksheet. The reportable Social Security benefit is calculated using the worksheet below and entered on Step 4 of the IA 1040.

SOCIAL SECURITY WORKSHEET

Include any bonus depreciation and section 179 adjustment from line 14 of the Iowa 1040 and all other Iowa net income decoupling to compute correct amount.	3.

* Line 3 Notes

Bonus Depreciation / Section 179 / and All Other Iowa Net Income Decoupling

Iowa taxpayers who received Social Security benefits in 2017 and claimed bonus depreciation / section 179 on their federal returns or have other Iowa net income decoupling may have to recompute their reportable benefits on the worksheet.

Those who need to recompute the reportable Social Security benefits should add the adjustment from line 5 of Schedule IA 4562A and all other Iowa net income decoupling to the other amounts shown on line 3 of the Social Security Worksheet from the federal return and the RRB 1099. The rest of the form is then completed with the amounts normally used to complete the worksheet from the federal 1040 or 1040A.

**Include the following incomes or adjustments to income on line 3 if applicable.
(These were excluded from federal AGI.):**

- foreign-earned income
- income excluded by residents of Puerto Rico or American Samoa
- proceeds from Savings Bonds used for higher education and
- employer-provided adoption benefits.

Railroad Retirement Benefits

Although Railroad Retirement benefits are not taxable, one-half of the benefits received must be used to determine the amount of Social Security benefits that are reportable to Iowa.

Interest from Federal Securities

For purposes of determining reportable Social Security benefits, you must also include interest from federal securities.

Married Separate Filers:

- a. If both spouses received Social Security benefits, the reportable amount is allocated between the spouses in the ratio of the benefits received by one spouse to the total benefits received.

Capital Gain Deduction

The capital gain deduction is not to be taken on this line. Qualified taxpayers will take the capital gain deduction on line 23 of the IA 1040.

A copy of your federal Schedule D and Form 8949 (if applicable) must be included with this return if required for federal.

Married Separate Filers:

Taxpayers who filed separate federal returns should report capital gain or loss as reported for federal tax purposes.

If a joint federal return was filed and both spouses have capital losses, each spouse may claim up to a \$1,500 capital loss plus any unused portion of their spouse's \$1,500 loss limitation. If both spouses are reporting capital losses, the sum of both spouses' losses may not exceed \$3,000.

Line: 9

Step: 5

Step Subject: Gross Income

Year: 2017

The same amounts of pensions and annuities are taxable for Iowa as are taxable for federal, with the exception of military retirement pay. Retirement pay for military service in the United States Armed Forces, the Armed Forces Military Reserve, or the National Guard is eligible for exemption from Iowa income tax and is not included on line 9, without regard for age or disability. The Army, Navy, Air Force, Marine Corps, and Coast Guard make up the Armed Forces. Only military retirement pay received from the Defense Finance and Accounting Service (DFAS), or a similar source, is eligible for the exemption. Retirement pay received from other sources, including the Office of Personnel Management (OPM), does not qualify for the exemption. In particular, retirement pay resulting from participation in the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS) does not qualify for the exemption.

For more details, see [Iowa Administrative Rule 701-40.80](#).

State or Local Government Employee

If you are a state or local government employee who retired after December 31, 1994, your taxable pensions and annuities on your Iowa return may be different than on your federal return. In these cases, see the 1099-R issued by Iowa Public Employees Retirement System (IPERS), for the taxable amount.

Railroad Retirement Benefits

Railroad Retirement benefits paid by the Railroad Retirement Board are not taxable on the Iowa return. These benefits should not be included on this line.

OTHER INCOME, BONUS DEPRECIATION / SECTION 179 ADJUSTMENT

Line: 14

Step: 5

Step Subject: Gross Income

Year: 2017

Enter taxable income not reported on lines 1-13. Include an explanation of the type of income. Examples of income to be reported on line 14 include:

- a. Baby-sitting income not reported on federal Schedule C or C-EZ.
- b. Expensing and depreciation adjustment from the IA 4562A and the IA 4562B; include the IA 4562A and the IA 4562B with your return.
- c. Capital gain from installment sales in 2017: Accrual-method taxpayers may use the installment method for reporting capital gain on their Iowa returns.
- d. College Savings Iowa (Iowa Educational Savings Plan Trust) or Iowa Advisor 529 Plan: Income received from the cancellation of a participation agreement to the extent the amount was previously deducted on line 24 of the IA 1040.
- e. Director's fees.
- f. Drilling: Intangible drilling costs that were reported on federal form 6251.
- g. Executor's fees.
- h. Reserved for future use.

- i. Partnership income and / or S corporation income: Modifications that increase the income reported on line 10 of the IA 1040.
- j. Refundable Iowa tax credits received in 2017 which were included as income on the federal 1040 must be added back.
- k. Refunds: State income tax refunds other than Iowa to the extent that the tax refunded in 2017 was deducted on a prior Iowa return.
- l. Wells: Percentage depletion from an oil, gas, or geothermal well that was reported on federal form 6251.
- m. Other income as reported on line 21 of the federal 1040. Do not include any federal NOL adjustment.
- n. Net Premium Tax Credit / Health Coverage Tax Credit: The Net Premium Tax Credit from line 69 of the 2016 federal 1040 and the Health Coverage Tax Credit from line 73c of the 2016 federal 1040 will be reported as Other Income on line 14 of the 2017 IA 1040. The Net Premium Tax Credit and the Health Coverage Tax Credit are reportable income to the extent these credits were a reimbursement for health insurance premiums deducted from Iowa income in a prior year.

The Iowa 1040 departs from the federal 1040 in the treatment of health insurance premiums by allowing taxpayers to elect to deduct qualifying health insurance premiums as an adjustment to Iowa gross income. The Iowa return allows a deduction for health insurance premiums on line 18 of the IA 1040, rather than reporting those same premiums as a medical expense deduction on the IA 1040 Schedule A for Iowa Itemized Deductions.

If the deduction is taken on the IA 1040 Schedule A, then the federal tax guidance should be followed when addressing the complications due to the impact of the federal excess advance premium tax credit repayment, the net premium tax credit, and the health coverage tax credit.

However, if the deduction is taken on line 18 of the IA 1040, then the IA 1040, rather than the Iowa Schedule A, must reflect the impact of the federal excess advance premium tax credit repayment, the net premium tax credit, and the health coverage tax credit. The Iowa expanded instructions for lines 14 and 18 of the IA 1040 set forth the Department's guidance for the correct reporting of these amounts.

- o. Iowa ABLE Savings Plan: Income from cancellation of accounts or other non-qualifying withdrawal to the extent the amount was previously deducted on line 24 of the IA 1040.

- p. Employer-provided transportation expenses (employer-provided bus passes, parking, and mass transit benefits): employees who used pretax dollars to pay for mass transit must add back to their Iowa taxable income the amount they excluded for federal purposes that is above the maximum Iowa exclusion. For tax year 2017, the maximum Iowa exclusion for mass transit was \$135 per month.

Married Separate Filers:

The spouse to whom the income was paid must report that income. Modifications to partnership and / or S corporation income are allocated between spouses in the same manner as that income was divided on line 10, IA 1040.

PAYMENTS TO AN IRA, KEOGH, OR SEP

Line: 16

Step: 6

Step Subject: Adjustments to Income

Year: 2017

All Taxpayers

All taxpayers report adjustments from *all sources* in this section.

Nonresidents and Part-Year Residents

Nonresidents and part-year residents must also report **Iowa-source** adjustments to income on Schedule IA 126, lines 16-24.

Enter the amount claimed on your federal tax return for payments made to your IRA, Keogh Plan, SEP, SIMPLE, or Qualified Plans.

Roth IRA

Payments made to a Roth IRA are not deductible.

Married Separate Filers:

- a. If only one spouse has earned income, that individual can contribute up to \$5,500 per year (\$6,500 if 50 or older) to an IRA account of the nonworking spouse and up to \$5,500 per year (\$6,500 if 50 or older) to an IRA account of the individual.

When claiming the deduction between spouses, the working spouse will usually claim all of the deduction, not to exceed the federal limits for both spouses. However, if the nonworking spouse has any earned income, then the nonworking spouse must claim the deduction to the extent of his or her earned income. The working spouse will then claim the balance of the IRA contribution of both spouses. (Examples of how to prorate)

- b. If both spouses earned income and made contributions to an IRA account, each spouse must claim his or her own contribution, not to exceed \$5,500 per spouse (\$6,500 if 50 or older).
- c. If both spouses made contributions to an IRA but only a portion of the contribution is deductible on the federal return, the amount of the IRA deduction that is allowed for federal income tax purposes must be allocated between the spouses in the ratio of the IRA contribution made by each spouse to the total IRA contribution made by both spouses. (Examples of how to prorate)
- d. For Keogh Plans, SEPs, SIMPLE, or Qualified Plans, each spouse must claim his or her individual contributions.

HEALTH INSURANCE PREMIUM

Line: 18

Step: 6

Step Subject: Adjustments to Income

Year: 2017

It is typically to your advantage to take this deduction on line 18 instead of Schedule A, due to the Schedule A reduction of medical and dental expenses by 10% of federal AGI. Schedule A cannot contain any health or dental insurance premiums which are used as a deduction on line 18.

Enter 100% of the amount paid for:

- health insurance premiums
- supplemental health insurance, such as:
 - Medicare B supplemental medical insurance
 - Medicare D voluntary prescription drug insurance
- dental insurance premiums
- long-term nursing home coverage premiums

Do NOT include:

- “Medicare tax withheld” on your W-2
- premiums paid with pretax dollars
- premiums which are later reimbursed, in the same tax year

Federal Health Insurance Credits

Any Excess Advance Premium Tax Credit Repayment from line 46 of the federal 1040 will be entered on line 18 of the IA 1040 in the year paid. Any repayment calculated on your 2017 federal return cannot be included on line 18 of the 2017 IA 1040, but will be entered on line 18 of the 2018 IA 1040.

The Net Premium Tax Credit from line 69 of the 2017 federal 1040 and the Health Coverage Tax Credit from line 73c of the 2017 federal 1040 will be reported as Other Income on line 14 of the 2018 IA 1040. The Net Premium Tax Credit and the Health Coverage Tax Credit are reportable income to the extent these credits were a reimbursement for health insurance premiums deducted from Iowa income in a prior year.

The Iowa 1040 departs from the federal 1040 in the treatment of health insurance premiums by allowing taxpayers to elect to deduct qualifying health insurance premiums as an adjustment to Iowa gross income. The Iowa return allows a deduction for health insurance premiums on line 18 of the IA 1040, rather than reporting those same premiums as a medical expense deduction on the IA 1040 Schedule A for Iowa Itemized Deductions.

If the deduction is taken on the IA 1040 Schedule A, then the federal tax guidance should be followed when addressing the complications due to the impact of the federal excess advance

premium tax credit repayment, the net premium tax credit, and the health coverage tax credit.

However, if the deduction is taken on line 18 of the IA 1040, then the IA 1040, rather than the Iowa Schedule A, must reflect the impact of the federal excess advance premium tax credit repayment, the net premium tax credit, and the health coverage tax credit. The Iowa expanded instructions for lines 14 and 18 of the IA 1040 set forth the Department's guidance for the correct reporting of these amounts.

Premiums Paid with Pretax Dollars

This deduction is not available to individuals who have paid health or dental insurance premiums on a pretax basis. Pretax occurs when an employer subtracts the amount of the health or dental insurance premium from an employee's gross wages before withholding federal and state income taxes and calculating FICA. See your payroll department if you do not know whether or not your health or dental insurance was paid on a pretax basis.

The federal Affordable Care Act requires employers to report the cost of coverage under an employer-sponsored group health plan. This reporting is for informational purposes only and will provide employees useful and comparable consumer information on the cost of their health care coverage paid by the employer in box 12 of the W2, code DD. The code DD amount is paid by employers and is not used for tax purposes.

Married Separate Filers:

If one spouse is employed and has health or dental insurance premiums paid through his or her wages, that spouse will claim the entire deduction. If both spouses pay health or dental insurance premiums through their wages, each spouse will claim what that individual paid.

If both spouses have self-employment income, the deduction for self-employed health or dental insurance must be allocated between the spouses in the ratio of each spouse's self-employment income to the total self-employment income of both spouses. If health or dental insurance premiums are paid directly by one spouse, that spouse will claim the entire deduction. If both spouses paid through a joint checking account, the deduction will be allocated between the spouses in the ratio of each spouse's net income to the total net income of both spouses. For this net income calculation, do not include line 18, the health or dental insurance deduction.

Married Separate Filers:

Only the spouse liable for these payments can deduct the alimony paid.

PENSION / RETIREMENT INCOME EXCLUSION

Line: 21

Step: 6

Step Subject: Adjustments to Income

Year: 2017

If you or your spouse receive a pension, an annuity, a self-employed retirement plan, deferred compensation, IRA distribution, or other retirement plan benefits, you may be eligible to

exclude from Iowa income tax part or all of the retirement income that is taxable on your federal return. The Roth conversion income, included in net income, is eligible for this exclusion.

Social Security benefits, railroad retirement benefits, and military retirement pay are not included. Since railroad retirement benefits and military retirement pay are not reported on line 9 of the IA 1040, an exclusion does not apply on line 21. However, if you are receiving military retirement pay, you may still be eligible to exclude other non-military pension income.

The exclusion is up to \$6,000 for individuals who file status 1, 5, or 6 and up to \$12,000 for married taxpayers who file status 2, 3, or 4. (If, for example, an individual has \$5,000 in pension / retirement income, the exclusion will be the actual \$5,000, not the maximum of \$6,000.)

To take this exclusion the pensioner or retirement income recipient must meet one of the following conditions:

- a. 55 years of age or older on December 31, 2017, or
- b. disabled, or
- c. a surviving spouse or a survivor having an insurable interest in an individual who has qualified for the exclusion in 2017 on the basis of age or disability. A survivor other than the surviving spouse is considered to have an "insurable interest" if the survivor is a son, daughter, mother, or father of the annuitant or pensioner.

Only the pension income of the spouse who meets the eligibility requirements can be shown on Line 21. Please see the examples below for further guidance.

EXAMPLE 1: A married couple elected to file separately on the combined return form. One spouse was 52 years of age and received a pension income of \$20,000. The other spouse was 55 years of age and received no pension income. Since the spouse receiving the pension income was not 55 years of age, no exclusion is allowed on the Iowa return.

EXAMPLE 2: A married couple elected to file separately on the combined return form. One spouse was 52 years of age and received a pension income of \$10,000. The other spouse was 55 years of age and received a pension income of \$8,000. Since only one spouse receiving the pension income was 55 years of age, an exclusion of \$8,000 is allowed on the Iowa return. The exclusion of \$8,000 is allowed since a married couple is allowed a combined exclusion of up to \$12,000.

EXAMPLE 3: A married couple elected to file a joint return. One spouse was 52 years of age and received a pension income of \$10,000. The other spouse was 55 years of age and received a pension income of \$5,000. Since only one spouse receiving the pension income was 55 years of age, an exclusion of \$5,000 is allowed on the Iowa return.

EXAMPLE 4: A spouse dies during the year at the age of 60 without receiving any pension income. The surviving spouse is not disabled, is 50 years old, and receives a pension from a previous employer. The surviving spouse is not eligible for any pension exclusion. Since the

surviving spouse is the only one receiving the pension income, the eligibility of the deceased spouse doesn't allow the survivor to take the exclusion.

Had the pension income been attributable to the deceased spouse, then the surviving spouse could take the exclusion.

EXAMPLE 5: A 54-year old single filer receives \$5,000 pension income of a deceased parent. The deceased parent would have qualified for the pension exclusion. The 54-year old also receives pension income of his own in the amount of \$10,000. The 54-year old can take the pension exclusion in the amount of \$5,000 based upon his insurable interest in the parent who would have qualified.

EXAMPLE 6: Same facts as example 5, except the 54-year old is married and the amount of the parent's pension income received is \$15,000. The 54-year old spouse does not meet the pension exclusion requirements either. The allowable pension exclusion is \$12,000.

Married Separate Filers:

If both spouses have pension income, and both meet the eligibility requirements, the exclusion of up to \$12,000 is prorated between them in the ratio that each spouse's pension income relates to the total pension income received by both spouses. If only one spouse has pension income and meets the eligibility requirements, that spouse takes the entire exclusion of up to \$12,000. The spouse who has no pension income receives no exclusion.

IOWA CAPITAL GAIN DEDUCTION FOR CERTAIN BUSINESS/FARM ASSETS/ESOP STOCK ONLY

Line: 23

Step: 6

Step Subject: Adjustments to Income

Year: 2017

This is a deduction of qualifying net capital gain realized in 2017. Note: Line 23 can be more than the net total reported on Schedule D. Unrelated losses are not to be included in the computation of the deduction. An example of an unrelated loss is the sale of common stock at a loss.

The Iowa capital gain deduction is subject to review by the Iowa Department of Revenue. The deduction must be reported on one of six forms:

- To claim a deduction for capital gains from the qualifying sale of cattle, horses, or breeding livestock, complete the IA 100A.
- To claim a deduction for capital gains from the qualifying sale of real property used in a farm business, complete the IA 100B
- To claim a deduction for capital gains from the qualifying sale of real property used in a non-farm business, complete the IA 100C.
- To claim a deduction for capital gains from the qualifying sale of timber, complete the IA 100D.
- To claim a deduction for capital gains from the qualifying sale of a business, complete the IA 100E.
- To claim a deduction for capital gains from the qualifying sale of employer securities to a qualified Iowa employee stock ownership plan (ESOP), complete the IA 100F.

The completed form must be included with the IA 1040 to support the Iowa capital gain deduction. The Department will use this form to verify that the taxpayer qualifies for the deduction. The Department may request additional information if needed.

Complete a separate IA 100B-100F for each distinct property sale, although multiple livestock sales can, in some instances, be reported on one IA 100A (see IA 100A instructions). Complete the applicable form each year of a qualifying installment sale. Complete the applicable form even if the gain was passed-through from a separate entity.

The sale of assets by a C corporation does not qualify for the Iowa capital gain deduction. However, the gain from a corporate liquidation under Internal Revenue Code (IRC) section 331 may qualify for the Iowa capital gain deduction.

For taxpayers filing separately on the same return, each spouse must complete the appropriate IA 100 form for the Iowa capital gain deduction claimed based on the spouse's ownership share in the property.

For more information on the Iowa capital gain deduction, see the instructions for the respective IA 100 form, Iowa Administrative Code 40.38, and the Capital Gain Flowcharts.

Eligible Property Sales

The Iowa capital gain deduction is available for the net capital gain from qualifying sales of the following properties:

a. Cattle, Horses, and Breeding Livestock

A taxpayer may deduct the net capital gain from the sale of cattle and horses used for breeding, draft, dairy, or sporting purposes and held for at least 24 months. A taxpayer also may deduct the net capital gain from the sale of other livestock used for breeding purposes and held for at least 12 months. To qualify for the deduction, the taxpayer must receive greater than 50% of his or her gross income from farming and ranching in the tax year. However, the sale of qualifying livestock to a lineal descendant of the taxpayer eliminates the requirement to have in excess of 50% of gross income from farming and ranching.

b. Real Property Used in a Farm Business

A taxpayer may deduct the net capital gain from the sale of real property used in a farm business and held for at least 10 years. Additionally, the taxpayer must materially participate in the farm business. Typically, the taxpayer must materially participate in the farm business for the 10 years prior to the sale. Alternatively, a retired or disabled farmer may qualify by materially participating in the farm business for five of the eight years prior to retirement or disability.

c. Real Property Used in a Non-Farm Business

A taxpayer may deduct the net capital gain from the sale of real property used in a business and held for at least 10 years. Additionally, the taxpayer must materially participate in the business, typically for the 10 years prior to the sale.

d. Timber

A taxpayer may deduct the net capital gain from the sale of timber held for at least 12 months. "Timber" means timber that qualifies for capital gain treatment under section 1231 of the Internal Revenue Code. Timber includes evergreen trees, such as Christmas trees, that are more than six years old at the time they are cut and sold for ornamental purposes.

e. Business

A taxpayer may deduct the net capital gain from the sale of a business held for at least 10 years. The sale of a business means the sale of all or substantially all of the tangible personal property or service of the business which is intangible personal property such as client lists, goodwill, patents, trade names, and similar items. This means that the sale of the assets of a business during the tax year must represent at least 90% of the fair market value of all of the tangible personal property of the business on the date of sale of the business

assets. Additionally, the taxpayer must materially participate in the business, typically for the 10 years prior to the sale. However, the sale of a business to a lineal descendent of the taxpayer eliminates the requirement for material participation in the business.

f. ESOP

A taxpayer may deduct 50% of the net capital gain from the sale of exchange of employer securities of an Iowa corporation to a qualified Iowa ESOP. To be eligible, the Iowa ESOP must own at least 30% of all outstanding employer securities issued by the Iowa corporation after completion of the transaction.

Non-Qualifying Capital Gain Sales

Capital gains from sales of the following properties typically do not qualify for the Iowa capital gain deduction:

- Investment property, such as real property held for speculation but not used in a business
- Bonds and stocks, other than a qualifying sale of employer securities of an Iowa corporation to an Iowa ESOP
- Ownership interests and capital stock in a business, other than a qualifying sale of employer securities of an Iowa corporation to an Iowa ESOP
- Merchandise and inventory of a business

Installment Sales

In the case of installment sales of qualifying property, only installments received in the 2017 tax year qualify for the capital gain deduction on the 2017 return. Eligibility for the deduction is determined at the time of the installment sale. Accrual-method taxpayers: See instructions for line 14 of the IA 1040.

Net Operating Losses

For tax years beginning on or after January 1, 1998, the capital gain deduction otherwise allowable is not allowed in computing a net operating loss (NOL) deduction for purposes of carrying the net operating loss deduction to another tax year. Further, when applying an NOL from tax year 1998 or later, the capital gain deduction is not allowed in the carryback or carryover tax year and must be added back to that year's income to the extent of the NOL.

Married Separate Filers:

Divide the capital gain deduction based on ownership of the asset.

a. Jointly held: Divide equally between spouses.

b. If other than jointly held: Divide between spouses based on percentage of ownership. (Examples of how to prorate)

OTHER ADJUSTMENTS

Step: Step 6

Step Subject: Adjustments to Income

Enter the total of other allowable adjustments as described below. Include an explanation for each adjustment. Do not include any deduction for the small business health insurance tax credit that was not allowed as a deduction on the federal return.

		Segal Americorps Education Award Payments	

a. Accrual method

Taxpayers who had capital gains in 2017 that were reported on the installment method for federal tax purposes and the entire gain was reported for Iowa in a prior year do not have to report installments.

b. Active duty military pay

Members of the armed forces, armed forces military reserve and the national guard in an active duty status can exclude pay received from the federal government for military service performed, to the extent it was included in line 15, Gross Income.

c. Alternative motor vehicle deduction

Alternative motor vehicle deduction of \$2,000 for those completing federal form 8910 (Alternative Motor Vehicle Credit)

The Internal Revenue Service certifies whether or not a vehicle qualifies.

A complete list of vehicle models that have been certified for the Alternative Motor Vehicle Credit can be seen on the IRS website.

d. Capital gain from installment sales reported on the 2001 Iowa return using the accrual method

The installment method for reporting capital gain for accrual accounting taxpayers is adopted for Iowa individual income tax purposes for tax years beginning on or after January 1, 2002. However, if you used the accrual method of accounting and reported the entire capital gain on the 2001 Iowa return which was reported on the installment method for federal tax purposes, deduct the amount reported of any additional installments from that capital gain on this line.

e. Capital or ordinary gain from involuntary conversion related to eminent domain

An exclusion of both capital gain and ordinary gain is available for individual income taxpayers relating to capital or ordinary gain income realized by a taxpayer as a result of the involuntary conversion of property due to eminent domain. Eminent domain relates to the authority of certain government agencies or instrumentalities of government to condemn private property for any public improvement, public purpose, or other public use.

If there is no ordinary or capital gain recognized for tax purposes because the converted property is replaced with property that is similar to, or related in use to, the converted property, there is no exclusion allowed for Iowa tax purposes until the remaining gain is recognized for federal tax purposes or until the time of disposition of the replacement property. Any exclusion allowed for Iowa tax purposes does not alter the basis of the property as established for federal tax purposes, so the basis will remain the same for both federal and Iowa tax purposes.

f. Claim of Right Deduction

If income was repaid in the 2017 tax year and was reported and taxed on a prior Iowa return, that income may be deducted on the 2017 tax return. However, it may be to your advantage

to take a credit on line 62. You may take either the deduction on line 24 or take a credit on line 62, but not both.

Example of Claim of Right Deduction: A taxpayer reported \$7,000 in unemployment benefits on the 2014 Iowa return. In early 2017 the taxpayer was notified that \$4,000 of the unemployment benefits had to be repaid. The benefits were repaid by the end of 2017. The taxpayer may claim a \$4,000 income adjustment on line 24 of the 2017 Iowa return.

g. College Savings Iowa or Iowa Advisor 529 Education Savings Plans

If you or your spouse participate in the College Savings Iowa 529 Plan (Iowa Educational Savings Plan Trust) or the Iowa Advisor 529 Plan, each may deduct an amount contributed not to exceed \$3,239 per beneficiary. These are Iowa Section 529 Plans.

You must be the "participant" in the Iowa 529 plan in order to deduct your contributions. If you are not the "participant" in the Iowa 529 plan, you may not deduct your contributions to that plan.

Example:

Adam and Tara have 2 children; Charlie and Ruth. Adam opens two 529 accounts – one for Charlie and one for Ruth. Tara also opens two 529 accounts for both Charlie and Ruth. Both Adam and Tara can take up to \$3,239 per child's account. Adam and Tara each are eligible for a deduction of up to \$6,478. Adam and Tara's total potential deduction amount is \$12,956.

Only contributions to these two Iowa 529 plans qualify for a deduction on the Iowa return; however, a rollover from another state's 529 plan to one of the Iowa plans qualifies toward the deduction for Iowa income tax.

Be sure you have properly shown these contributions as a deduction for one of these plans. Most computer software programs will ask for this information and correctly indicate the appropriate reason for the deduction.

Beginning with tax year 2015, individuals making a contribution on or before the Iowa income tax return filing deadline (April 30 for calendar year tax filers), excluding extensions, can elect to have that contribution treated as though it was made on the last day of the preceding calendar year, which allows them to claim the income tax deduction for the most recently completed tax year.

Prior to tax year 2015, contributions had to be made during the calendar year in order to be deductible on the Iowa return for that year.

h. Disability income exclusion

You may exclude from Iowa tax a portion of the disability pay you received in 2017 if you meet ALL of the following conditions:

- You received disability pay, and
- You were not yet 65 when your tax year ended, and
- You retired on disability and were totally and permanently disabled when you retired, and
- On January 1, 2017, you had not yet reached the age when your employer's retirement program would have required you to retire.

If you meet all of these conditions, obtain form IA 2440 (pdf). You **MUST** complete form IA 2440 to take this exclusion. A doctor's statement must accompany each year's return attesting to the taxpayer's complete and permanent disability.

i. Domestic production activities deduction from line 35 of the federal 1040

Iowa allows the deduction for qualified production activities income set forth in section 199 of the Internal Revenue Code for tax periods beginning on or after January 1, 2005.

j. Reserved for future use.

If you claimed an Alcohol Fuel Credit on your federal tax return, enter the amount of your Alcohol Fuel Credit here and attach a copy of federal form 6478.

m. Foreign-earned income exclusion and/or foreign housing deduction from federal form 2555 or form 2555EZ

o. Health savings account deduction from line 25 of the federal 1040

p. Injured veterans program, contributions to

Do not put on IA Schedule A.

An injured veteran's grant program is available under the Iowa Department of Veteran Affairs. Money appropriated for these grants will be given to veterans injured in a combat zone after September 11, 2001. The grants cannot exceed \$10,000 per injured veteran. The Department of Veteran Affairs may also receive money from any public or private source for purposes of providing grants to injured veterans.

A deduction is allowed for the amount paid by a taxpayer to the Department of Veteran Affairs for the purposes of providing grants to the injured veterans grant program. Do not claim these amounts on the Iowa Schedule A.

q. Injured veterans program, grants from

The amount of Department of Veteran Affairs grant money received by an injured veteran that is included in the veteran's federal adjusted gross income is not included in the veteran's Iowa net income.

s. Iowa Veterans Trust Fund

A deduction in computing Iowa adjusted gross income is allowed for taxpayers for unreimbursed expenses relating to a human organ transplant. The taxpayer, while living, who donates all or part of a designated human organ can claim a deduction for unreimbursed expenses such as travel expenses, lodging expenses, and lost wages.

The deduction is limited to \$10,000, and a taxpayer can only claim this deduction once. If a taxpayer claims this deduction for Iowa tax purposes, the taxpayer cannot also claim these same unreimbursed expenses as an itemized deduction for medical expenses on the Iowa return.

- Amounts of victim restitution payments received pursuant to Iowa Code chapters 910 and 915
- Amounts of damages awarded by a court, and received by a taxpayer, in a civil action filed by the victim against an offender

bb. Wages paid to certain individuals (ex-offenders & disabled)

If you operate a business, you may qualify for an additional deduction of 65% of the wages paid in the first 12 months up to a maximum deduction of \$20,000 per qualifying new employee. This deduction is in addition to the wage deduction you were allowed on federal Schedule C. To qualify, the new employee(s) must be disabled or an ex-offender on parole, probation, or in a work release program. All types of businesses may qualify for this deduction for hiring qualifying ex-offenders. Income received by a nonresident individual for training by an electric utility in Iowa is also excluded.

hh. Rapid Response to State Disasters

Beginning with tax year 2016, out-of-state businesses and individuals performing disaster or emergency-related work in Iowa are not subject to Iowa income tax or withholding. The disaster response period starts ten days before the state-declared or presidential-declared disaster and ends sixty days after the end of the declared state disaster or emergency.

Interest and earnings income from ABLE are exempt from Iowa individual income tax.

When the adjustment is attributable to a specific spouse, it is taken by that spouse.

When the adjustment is not attributable to any one spouse, it must be prorated based on the net income amounts on line 26. Calculate through line 26 as if the adjustment in question were excluded.

If the adjustment is attributable to a dependent, such as the student loan interest deduction, it is prorated based on net income before the adjustment in question.

Qualifications for Exemption from Tax

If you qualify for the low income exemption as explained below, enter the words “low income exemption” in the area to the left of your net income figure on line 26. Enter zero on line 55 and complete the remainder of the return.

If you do not owe tax:

Even if you owe no tax, you must file an income tax return to receive a refund of any refundable Iowa tax credits or any Iowa tax withheld.

If you are exempt from tax:

If you are exempt from tax, you may want to change your [IA W-4 \(pdf\)](#) form with your employer to eliminate state withholding from your wages.

Income included to determine exemption:

The following income must be included when determining if you are eligible for the \$9,000 exemption or the \$13,500 exemption (\$24,000 or \$32,000 if 65 or older on 12/31/17).

- a. The incomes of both spouses must be combined to determine if you meet this exemption from tax.
- b. The amount of any pension exclusion that is taken on line 21 of the IA 1040.
- c. Any reportable Social Security benefits from step 4 of the IA 1040.
- d. Any amount of lump-sum distribution separately taxed on federal form 4972.
Note: Carryover of Net Operating Loss claimed on the IA1040 must be added back to net income line 26 to determine who must file.

Filing Status 1, Single:

If you are using filing status 1 (single), you are exempt from Iowa tax if you meet either of the following conditions:

- a. Your net income from all sources, line 26, is \$9,000 or less and you are not claimed as a dependent on another person's Iowa return (\$24,000 if you are 65 or older on 12/31/17).

- b. Your net income from all sources, line 26, is less than \$5,000 and you are claimed as a dependent on another person's Iowa return.

All Other Filing Statuses:

If you are filing married filing jointly, married filing separately on a combined return, head of household, or qualifying widow(er), you are exempt from Iowa tax if you meet the following condition:

- a. Your net income from all sources, line 26, is \$13,500 or less and you are not claimed as a dependent on another person's Iowa return (\$32,000 if you or your spouse is 65 or older on 12/31/17).

Nonresidents and Part-Year Residents

In addition to the exemption provisions above, if you were a nonresident or part-year resident and had net income from Iowa sources of less than \$1,000 (see note below) you are exempt from Iowa tax. To review instructions for "Iowa-source income," see the instructions for lines 1-26 of the IA 126. If you had Iowa tax withheld and are requesting a refund, or choose to file an Iowa return even though you aren't required to do so, you must complete the entire IA 1040 and the entire IA 126.

NOTE: If you were a nonresident or part-year resident and subject to Iowa lump-sum tax or Iowa minimum tax (even if Iowa-source income is less than \$1,000), you are required to file an Iowa return reporting the lump-sum and/or minimum tax even if you have no regular Iowa income tax liability.

Illinois Residents

See reciprocal agreement.

Military Spouses

See Military Spouses Residency Relief Act.

Married Separate Filers:

Married taxpayers filing married filing separately on a combined return or married filing separate returns must use the combined income of both spouses in determining eligibility for exemption from tax.

If either spouse has a net operating loss that is carried back or forward, then the other spouse cannot use the low income exemption. If the spouse with the net operating loss chooses not to carry the loss back or forward, then the other can claim the low income exemption. A statement must be included with the return saying that the spouse with the net operating loss will not carry it back or forward.

FEDERAL INCOME TAX REFUND / OVERPAYMENT RECEIVED IN 2017

Line: 27

Step: 7

Step Subject: Federal Tax Addition and Deduction

Year: 2017

If you received a refund of federal income tax during 2017:

You must report the amount on this line. It must be reported even if you used the standard deduction on the prior year's Iowa return. The federal refund must be included on this line because you benefited from being able to deduct federal taxes on the prior year's Iowa return, which reduced your Iowa taxable income for that year. The amount reported on this line should not exceed the total amount of any federal tax deduction taken on the prior year(s) Iowa return.

Include the following:

- The refund you received from your 2016 federal tax return
To find the amount you received, check your records or call the IRS at 1-800-829-1040. This information is not available from the Iowa Department of Revenue.
- Any federal refunds received in 2017 for other years that were amended or filed late.
- Any portion of the federal refund received in 2017 due to excess FICA payments or the Fuel Tax Credit from federal form 4136 if they were claimed as a federal tax payment on line 33 of a prior year Iowa return.

Federal estimated tax

If you chose to have any part of an overpayment of federal income tax credited to estimated tax payments for 2017, the amount should be claimed as 2017 estimated tax paid on line 32. The total federal overpayment must also be reported on line 27.

Do NOT include any part of a federal refund from refundable federal credits, including the following:

- Earned Income Tax Credit
- Additional Child Tax Credit
- First-time Homebuyer Credit
- Existing Homebuyer Credit
- Refundable Education Credit
- Net Premium Tax Credit

You moved to Iowa in 2017:

You are filing an Iowa return for 2017 for the first time because you moved into Iowa during the year. A refund of federal tax received in 2017 is not reported if the tax was not deducted from Iowa income in a prior year.

You were a nonresident:

You were a nonresident for the tax year of the refund and were not required to file an Iowa return for that year.

You did not deduct federal tax in the refund year:

The refund you received was from a year in which you did not take a deduction for the payment of federal tax because your income was less than the minimum amount for paying Iowa tax or your tax for that year was calculated using the alternate tax computation.

Married Separate Filers:

If the refund received in 2017 was from a jointly-filed federal return, it must be divided between spouses in the ratio of the spouses' net incomes in the year for which the refund was issued.

Example: A 2016 federal refund received in 2017 would be prorated using the spouses' net incomes from the 2016 Iowa return.

For purposes of reporting on line 27, the refund must be prorated in this manner even if the refund itself was divided between spouses in some other way, either by mutual agreement or other requirement.

Example of how to prorate:

Your income is \$10,500
Spouse's income is \$15,500
Total: \$26,000
Federal refund: \$1,200

Divide your income by total income: $\$10,500$ divided by $\$26,000 = 40\%$
The spouse's income is, therefore, 60% of their combined income.

In this example, line 27 is \$720 (60%) of the federal refund for the spouse, and \$480 (40%) of the federal refund for you.

(Other examples of how to prorate)

SELF-EMPLOYMENT / HOUSEHOLD EMPLOYMENT / OTHER FEDERAL TAXES

Line: 28

Step: 7

Step Subject: Federal Tax Addition and Deduction

Year: 2017

Taxpayers can deduct their entire withholding, estimated payment, and additional federal tax paid amounts on lines 31, 32, and 33. However, certain amounts must be added back on line 28, including the following:

- Excess advance premium tax credit repayment reported on line 46 of the federal 1040
- Federal self-employment tax reported on line 57 of the federal 1040
- Unreported Social Security and Medicare tax on line 58 of the federal 1040

- Other additional federal taxes reported on line 62c of the federal 1040

Additional Medicare tax withholding from line 24 of federal form 8959 and net investment income tax from federal form 8960 are not added back on line 28.

It is acceptable to report on line 28 either the current year's self-employment / household employment tax / other federal taxes or the prior year's, as long as the reporting method is consistent from one year to the next.

Married Separate Filers:

Federal taxes attributable to a specific spouse are claimed by that spouse. For example, each spouse must claim his or her own federal self-employment tax. Federal taxes not attributable to any one spouse must be prorated between the spouses based on the net income of the year for which they are paying the federal tax. For example, the household employment taxes are

divided between spouses in the ratio of their respective net incomes.

FEDERAL ESTIMATED TAX PAYMENTS MADE IN 2017

Line: 32

Step: 7

Step Subject: Federal Tax Addition and Deduction

For example, include a federal estimated income tax payment for 2016 paid in January 2017, but not an estimated tax payment for 2017 paid in January 2018.

Federal income tax includes the net investment income tax on federal form 8960.

Taxpayers can deduct their entire estimated payment amount on line 32. However, certain amounts must be added back on line 28, including the following:

- Excess advance premium tax credit repayment reported on line 46 of the federal 1040
- Federal self-employment tax reported on line 57 of the federal 1040
- Unreported Social Security and Medicare tax on line 58 of the federal 1040

- Additional Medicare tax from federal form 8959 reported on line 62a of the federal 1040
- Other additional federal taxes reported on line 62c of the federal 1040

Net investment income tax from federal form 8960 is not added back on line 28.

Refundable Credits

Refundable credits on the federal 1040 may be included on IA 1040, line 33, to the extent federal income tax was paid by applying the federal refundable credits, including:

- Earned Income Tax Credit
- Additional Child Tax Credit

Any refundable federal credits that reduce federal income tax liability are allowed as a federal tax deduction — up to the amount of the federal tax paid by the refundable credits — on the Iowa return.

In determining the order of applying the refundable federal tax credits, the federal Earned Income Tax Credit (EITC) should be applied first, followed by the Additional Child Tax Credit, and then any other refundable federal credits.

Example:

The following example illustrates how a refundable federal Earned Income Tax Credit (EITC) on a timely-filed 2016 federal 1040 may affect line 33 of the 2017 Iowa return.

FIRST: Federal Tax Liability For Tax Year 2016	
Taxpayer's Federal Tax Liability for Tax Year 2016:	\$2,000
Subtract Taxpayer's Federal Withholding:	- 500
Taxpayer's Unpaid Federal Tax Liability for Tax Year 2016:	1,500
SECOND: Apply EITC To Unpaid Federal Income Tax Balance	
Federal EITC Calculated by Taxpayer for Tax Year 2016:	\$ 2,500
Subtract the \$1,500 Federal Income Tax the Taxpayer Still Owes for Tax Year 2016:	-1,500
Taxpayer Will Receive a Federal Refund of EITC:	\$ 1,000
THIRD: Line 33 On Iowa Return For 2017	
33. Additional Federal Tax Paid in 2017 for Tax Year 2016	\$ 1,500
The \$1,500 federal tax liability paid by EITC for Tax Year 2016 is deductible on the 2017 Iowa return.	

Married Separate Filers:

The additional federal tax paid must be divided between spouses in the ratio of the spouses' Iowa net incomes for the prior years for which they paid additional federal income tax.

(Examples of how to prorate)

B. FICA Payments

FICA payments in excess of \$7,886.00 for Social Security tax for each person and the fuel tax credit from the 2017 federal return can be deducted as a federal tax payment on line 33. Any excess FICA tax and federal fuel tax credit refunded to you must be added back as a federal tax refund in the year received.

If you are self-employed, any self-employment tax you pay cannot cause an excess FICA payment.

General Instructions

Iowa follows federal guidelines for Schedule A itemized deductions with certain exceptions. To complete the [Iowa Schedule A \(pdf\)](#), refer to the federal 1040 instruction booklet. However, additional line instructions follow regarding Iowa Schedule A exceptions. You may only take

deductions that you paid in the tax year. Expenses incurred but not yet paid are deducted in the year they are paid.

Medical and Dental Expenses

Line 1: Enter medical and dental expenses as allowed on federal Schedule A, less the amount reported as health insurance on line 18 of the IA 1040. 100% of the amount paid for health insurance premiums is deductible on line 18 of the IA 1040. It may be to your advantage to take this deduction on line 18 of the IA 1040 instead of the Iowa Schedule A. If health insurance premiums were used as a deduction on line 18 of the IA 1040, they cannot be used on the Iowa Schedule A.

The Iowa 1040 departs from the federal 1040 in the treatment of health insurance premiums by allowing taxpayers to elect to deduct qualifying health insurance premiums as an adjustment to Iowa gross income. The Iowa return allows a deduction for health insurance premiums on line 18 of the IA 1040, rather than reporting those same premiums as a medical expense deduction on the Iowa Schedule A for Iowa Itemized Deductions.

If the health insurance deduction is taken on the Iowa Schedule A, then the federal tax guidance should be followed when addressing the complications due to the impact of the federal excess advance premium tax credit repayment and the net premium tax credit.

However, if the deduction is taken on line 18 of the IA 1040, then the IA 1040, rather than the Iowa Schedule A, must reflect the impact of the federal excess advance premium tax credit repayment and the net premium tax credit. The Iowa expanded instructions for lines 14 and 18 of the IA 1040 set forth the Department's guidance for the correct reporting of these amounts.

Line 2: Multiply the amount on federal form 1040, line 38 (federal 1040A, line 21 or 1040EZ, line 4) by 10% (.10). The federal adjusted gross income used to determine these deductions is the taxpayer's federal adjusted gross income plus any bonus depreciation and section 179 adjustments from line 14 of the Iowa 1040 and all other Iowa net income decoupling. Enter the result, or if less than zero, enter zero.

Certain itemized deductions are allowed only to the extent that the deductions exceed a percentage of federal adjusted gross income. These include medical and dental expenses that exceed 10% of federal adjusted gross income.

Line 3: Subtract line 2 from line 1. Enter the result, or if less than zero, enter zero.

Taxes You Paid

Line 4: Enter other state and local income taxes as allowed on federal Schedule A. Iowa state income tax is not deductible on the Iowa return. The School District Surtax and the Emergency Medical Services Surtax are deductible on the Iowa return. Taxes withheld or paid to other states, or local taxing authorities are included. Note: If you received in 2017 a refund of previously deducted state and local taxes, you must add the refund back as other income, line 14 of the IA 1040.

You cannot deduct Social Security, Medicare, federal unemployment (FUTA), or railroad retirement (RRTA) taxes. You cannot deduct taxes you paid for someone else.

State sales and use tax is not currently available for 2017 as an itemized deduction on the Iowa Schedule A.

Line 5: Enter real estate taxes as allowed on federal Schedule A.

Line 6: Enter personal property taxes as allowed on federal Schedule A.
Vehicle Registration Fee Deduction and Worksheet

If you itemize deductions, a portion of the automobile or multipurpose vehicle annual registration fee you paid in 2017 may be deducted as personal property tax on your Iowa Schedule A, line 6, and federal Schedule A, line 7.

This deduction is for annual registration fees paid based on the value of qualifying automobiles and multipurpose vehicles. Multipurpose vehicles are defined as motor vehicles designed to carry not more than 10 people, and constructed either on a truck chassis or with special features for occasional off-road operation [Iowa Code section 321.1(44)].

Annual registration fees on the following vehicles are not deductible: pickups (model year 2009 or older), motor trucks, work vans, ambulances, hearses, non-passenger-carrying vans, campers, motorcycles, or motor bikes.

This deduction applies only to the annual vehicle registration fee. It does not apply to the 5% one-time registration fee/fee for new registration that is imposed on the initial registration of a vehicle. That 5% fee is only deductible on the Iowa Schedule A if Iowa adopts the federal provision for deducting state sales and use tax paid and if the taxpayer claimed an itemized deduction for state sales and use tax paid on the federal Schedule A.

Newer Vehicles:

Use the following worksheet to calculate the deductible amount of annual registration fees paid in 2017 for qualifying automobiles and multipurpose vehicles (model year 2007 or newer). For tax years 2008 and earlier, pickup truck registration fees could not be taken as an itemized deduction, because the fees were structured as a flat fee and were not based on value. However, beginning with the 2009 tax year, there was a change in the registration fee structure for pickups.

More specifically, only model year 2010 and newer trucks that weigh in at 10,000 pounds or less when empty are registered based on weight, list price, and model year. All other trucks are still subject to a registration fee based on weight. Consequently, certain 2010 model year and newer trucks may use the Vehicle Registration Deduction Worksheet.

1. Enter the actual annual registration fee paid.	1.	
2. Take the weight of your automobile and divide it by 250. The weight is found on your automobile registration certificate.	2.	
3. Subtract line 2 from line 1. This is the deductible amount for line 37.	3.	

Example

Malia purchased an automobile from Jennifer.
The actual fee Malia paid to register the automobile at the courthouse was \$150.
The weight of the automobile is 3,000 pounds.
The deductible amount is calculated as follows:

1. Enter the actual annual registration fee paid.	1.	150
2. Take the weight of your automobile and divide it by 250. The weight is found on your automobile registration certificate.	2.	12
3. Subtract line 2 from line 1. This is the deductible amount.	3.	138

Older Vehicles:

For qualifying automobiles and multipurpose vehicles (model year 2006 or older) the deductible amount is 60% of the annual registration fees paid in 2017.

Line 7: Enter other taxes as allowed on federal Schedule A. Other taxes you paid are taxes not included on lines 5 or 6. List the tax paid and the total amount.

Line 8: Add lines 4 to 7. Enter the total here.

Interest You Paid

Lines 9a and 9b: Enter the home mortgage interest and points as allowed on federal Schedule A.

Taxpayers with the mortgage interest credit can claim a deduction on line 9 of Iowa Schedule A for all mortgage interest paid in the tax year and not just the mortgage interest that was deducted on the federal Schedule A.

Line 10: Enter points not reported on federal form 1098 as allowed on federal Schedule A

Line 11: Reserved for Future Use

Line 12: Enter investment interest as allowed on federal Schedule A. Include federal form 4952 if required.

Line 13: Add lines 9a to 12. Enter the total here

Gifts to Charity

The following are exceptions to federal Schedule A treatment of charitable contributions:

- Any charitable contributions of food inventory deducted on the federal return must be added back for Iowa purposes.
- A deduction for qualifying conservation contributions is limited to 30% of a taxpayer's federal AGI for Iowa purposes. For more information, see our <https://tax.iowa.gov/impact-non-conformity-2016-IRC> page.
- Injured veterans grant program contributions do not qualify as itemized deductions, but can be taken on line 24 of the IA 1040.
- Certain donations to a non-profit entity for use in the entity's College Savings Iowa Account (529 Plan) may not qualify as an itemized deduction. Do not include as an itemized deduction any amount that you contributed to a non-profit entity to be deposited into the entity's College Savings Iowa Account (529 Plan) if you designated that any part of your contribution was to be used for the direct benefit of your dependent or any other specific person.
- School Tuition Organization Tax Credit Contributions, Charitable Conservation Contribution Tax Credit Contributions, Endow Iowa Tax Credit Contributions, and Farm to Food Donation Tax Credit Contributions: do not include as an itemized deduction any contributions for which a credit is claimed on line 52 of the IA 1040.

Line 14: Enter the contributions by cash or check as allowed on federal Schedule A.

Line 15: Enter contributions other than by cash or check as allowed on federal Schedule A. Include federal form 8283 if more than \$500.

Line 16: Enter contributions carryover from prior year as allowed on federal Schedule A. Contributions carryover from prior year may be deducted if your contributions were capped in a prior year. Iowa follows the federal guidelines for carryforwards. The federal adjusted gross income used to determine these limitations is the taxpayer's federal adjusted gross income plus any bonus depreciation and section 179 adjustments from line 14 of the Iowa 1040 and all other Iowa net income decoupling. Documentation of the carry forward amount may be requested by the Department.

Line 17: Add lines 14 to 16. Enter the total here.

Casualty/Theft Loss

Line 18: Enter casualty or theft loss(es) as allowed on federal Schedule A. Include federal form 4684.

Job Expenses and Miscellaneous Deductions

Line 19: Enter unreimbursed employee expenses as allowed on federal Schedule A. Include federal form 2106 or 2106-EZ if required.

The Department may request you provide a letter from your employer stating the reimbursement policy and what is reasonable and required for the position. Certain job expenses and miscellaneous deductions are allowed to the extent the deductions are greater than 2% of the taxpayer's federal adjusted gross income. The federal adjusted gross income used to determine these deductions is the taxpayer's federal adjusted gross income plus any bonus depreciation and section 179 adjustments from line 14 of the Iowa 1040 and all other Iowa net income decoupling.

Line 20: Enter tax preparation fees you paid for preparation of your tax return including fees paid for filing your return electronically as allowed on federal Schedule A.

Line 21: Enter other expenses as allowed on federal Schedule A. List the type and amount.

Line 22: Add lines 19 to 21. Enter the total here.

Line 23: Multiply the amount on federal form 1040, line 38 (federal 1040A, line 21 or 1040EZ, line 4) by 2% (.02). The federal adjusted gross income used to determine these deductions is the taxpayer's federal adjusted gross income plus any bonus depreciation and section 179 adjustments from line 14 of the Iowa 1040 and all other Iowa net income decoupling. Enter the result, or if less than zero, enter zero.

Line 24: Subtract line 23 from line 22. Enter the result, or if less than zero, enter zero. Expenses not directly attributable to the care of the relative, such as rent, mortgage payments, interest, utilities, house insurance, and taxes cannot be included.

Other Miscellaneous Deductions

Line 25: Enter other miscellaneous deductions not subject to the 2% AGI limit as allowed on federal Schedule A. List the type and amount.

Total Itemized Deductions

Line 26: High income taxpayers may have to limit their itemized deductions. Use your federal filing status to identify the income guidelines below. High income taxpayers use the IA 104 (hyperlink) Iowa Itemized Deductions Worksheet if your federal adjusted gross income plus any bonus depreciation and section 179 adjustments from line 14 of the Iowa 1040 and all

other Iowa net income decoupling exceeds:

\$313,800 for qualifying widow(er) or married filing jointly

\$287,650 head of household

\$261,500 single

\$156,900 married filing separate taxpayers

Line 27: Enter the total of all other deductions on line 27 of the Iowa Schedule A as described below:

a. Expenses Incurred for Care of a Disabled Relative

Expenses, not to exceed \$5,000, incurred in caring for a disabled relative in your home may be deducted.

Disabled Relative Qualifications

The expenses which may be claimed are those for the care of a person who is your grandchild, child, parent, or grandparent.

The disabled person must be unable, by reason of physical or mental disability, to live independently and must be receiving or be eligible to receive medical assistance benefits under Title XIX of the U.S. Social Security Act.

A statement from a qualified physician certifying that the person with the disability is unable to live independently must be submitted with the return the first year a deduction is taken and every third year thereafter.

Qualifying Items

Qualifying items are those that are not reimbursed. Items may include food, clothing, medical expenses not otherwise deductible, and transportation for medical reasons. See IRS guidelines for medical mileage rate.

An itemized schedule of expenses must be included with the return.

Non-Qualifying Items

Expenses not directly attributable to the care of the relative, such as rent, mortgage payments, interest, utilities, house insurance, and taxes cannot be included.

Married Separate Filers: The total deduction claimed by both spouses for each relative with a disability may not exceed \$5,000.

b. Adoption Expenses

You may be eligible to deduct a portion of the adoption expenses you paid in 2016 if you incurred adoption expenses during the tax year, even if the child is not placed in Iowa.

Expenses include medical costs relating to the child's birth, any necessary fees, and all other costs connected with the adoption procedure. Include a separate schedule listing the adoption expenses.

This deduction is taken in the year that the expenses are paid even if the child is not placed in your home during that year or if the adoption does not occur.

For tax years beginning on or after 1/1/14, there is also an Adoption Tax Credit of up to \$2,500 for unreimbursed adoption expenses that can be calculated on the IA 177 and taken on line 62 of the IA 1040 for a child placed in Iowa. Qualifying adoption expenses exceeding 3% of total Iowa net income, less any Adoption Tax Credit claimed, are eligible for deduction. Subtract 3% of your total Iowa net income (and your spouse's, if married) entered on line 26 from the total of qualifying adoption expense, less any Adoption Tax Credit claimed on IA 1040 Line 62. Enter the result on IA 1040 Schedule A, Line 27.

Example: Taxpayer has Iowa net income of \$100,000 and adoption expenses of \$6,000. The taxpayer is eligible for an Adoption Tax Credit on line 62 of \$2,500.

$\$100,000$ (net income) \times 3% = $\$3,000$ (expenses not eligible for deduction)

$\$6,000$ (total adoption expenses) - $\$2,500$ (credit amount) = $\$3,500$ (expenses remaining for possible deduction)

$\$3,500$ (expenses remaining for possible deduction) - $\$3,000$ (expenses not eligible for deduction) = $\$500$ (deduction allowed on line 27 of IA Sch. A)

c. Mileage Deduction Charitable Purposes

Iowa allows an additional deduction for automobile mileage driven for charitable organizations. Calculate the deduction as follows:

1. Number of miles \times 39¢ / mile
2. Less charitable mileage deduction already claimed on the Iowa Schedule A
3. Equals additional mileage deduction for charitable purposes

This information is based on 422.9(2)(d) and 8A.363.

Line 28: Add lines 26 and 27. Enter the total here.

Proration of Deductions Between Spouses

Complete lines 29 to 33 only if you are using filing status 3 or 4.

Married Separate Filers:

If one spouse uses the itemized deduction, then both spouses must use the itemized deduction, even if separate Iowa returns are filed.

Itemized deductions must be divided between spouses in the ratio of their respective net incomes.

(Examples of how to prorate)

Line 29: Enter net income of both spouses from IA 1040, line 26.

29a. Your net income from IA 1040, line 26

29b. Spouse's net income from IA 1040, line 26

Line 32: Multiply line 28 by the percentage on line 31. Enter the result here and on IA 1040, line 37, column A.

Line 33: Subtract line 32 from line 28. Enter the result here and on IA 1040, line 37, column B. If you are using filing status 4, enter this amount on line 37, column A or your spouse's return.

Single taxpayers may be eligible for the Iowa income tax reduction; see Iowa Income Tax Reduction Worksheet. Carryover of Net Operating Loss claimed on the IA 1040 must be added back to net income line 26.

Special instructions for filing status 3, Married Filing Separately on a Combined Return, and filing status 4, Married Filing Separate Returns:

- Use the combined net incomes of both spouses.
- Prorate the alternate tax between spouses in the ratio of the net income of each spouse to the combined net income of both spouses using lines 7-11.
- If you are married filing separately and one spouse has a net operating loss that will be carried back or forward, then you cannot use the alternate tax computation. If the spouse with the net operating loss elects not to carry the net operating loss back or forward, then you can use the alternate tax computation. A statement must be included with the return saying that the spouse with the net operating loss will not carry it back or forward.
- If you are filing status 4 and do not provide the other spouse's income in step 2 on the IA 1040, you will not be allowed the alternate tax calculation.

IOWA LUMP-SUM TAX

Line: 40

Step: 9

Step Subject: Tax, Credits & Checkoff Contributions

Year: 2017

A lump-sum distribution occurs when, in one tax year, you receive the total balance from the pension or profit-sharing plan of an employer due to termination of employment, termination of the plan, or death of the employee.

Iowa lump-sum tax applies only if IRS form 4972 was used to compute the federal tax on any portion of the lump-sum distribution. If there is no federal lump-sum tax, then there is no Iowa lump-sum tax.

Iowa Residents:

Enter 25% of the federal tax from IRS form 4972 on line 40 of the IA 1040. Include federal form 4972.

Part-Year Residents:

If a lump-sum distribution reported on federal form 4972 was received while an Iowa resident, 25% of the federal tax from form 4972 must be entered on line 40. Part-year residents who

receive a lump-sum distribution while not an Iowa resident are not subject to Iowa lump-sum tax on that distribution. A copy of the federal form 4972 must be included.

Nonresidents:

Nonresidents receiving lump-sum distributions are not subject to Iowa lump-sum tax.

Married Separate Filers (including status 4):

Lump-sum tax is reported by the spouse who received the distribution.

The Iowa alternative minimum tax is imposed, for the most part, on the same tax preference items and adjustments on which federal alternative minimum tax is imposed. However, you may be subject to Iowa alternative minimum tax even if you have no liability for federal alternative minimum tax. All taxpayers with Iowa alternative minimum tax are to include a copy of the IA 6251 with their IA 1040.

If you had tax preference items and adjustments in 2017, see form IA 6251 for further information.

Nonresidents and Part-Year Residents:

If you have Iowa-source tax preferences or adjustments, you may be subject to Iowa alternative minimum tax. See form IA 6251.

Married Separate Filers (including status 4):

Each spouse that had tax preference items and adjustments must complete their own IA 6251.

Step: 9

Step Subject: Tax, Credits & Checkoff Contributions

Year: 2017

Taxpayers who have one or more dependents attending Kindergarten through 12th grade in an accredited Iowa school may take a credit for each dependent for amounts paid for tuition and textbooks. Dependents must have attended a school in Iowa that is accredited under Section 256.11, not operated for a profit, and adheres to the provisions of the U.S. Civil Rights Act of 1964.

Calculating the Credit

Calculate the proper amount of expenses per dependent and multiply the amount – not to exceed \$1,000 – by 25% (.25).

Keep records of your calculation, showing the name of each dependent, school(s) attended, and an itemized list of qualifying expenses.

Enter the total allowable credit on line 44.

Example

Students Patty and Mark have qualifying expenses of \$1,400 and \$700 respectively. Their parents can take a credit of \$250 (25% of \$1,000 maximum) for Patty and \$175 (25% of \$700) for Mark, for a total credit of \$425.

Divorced or separated parents

Only the spouse claiming the dependent can claim the amounts paid by that spouse for tuition and textbooks for that dependent.

Home schooling

Expenses for textbooks or other items for home schooling, tutoring, or schooling outside an accredited school do not qualify for the credit.

Married Separate Filers:

This credit must be taken by the spouse claiming the dependent. Any unused part of this credit cannot be used by the other spouse.

If the volunteer does not serve the entire year, the \$100 credit will be prorated based on the number of months that the volunteer served. If the volunteer served for a portion of a month, that will be considered as an entire month. The following table provides the qualifying amount of tax credit by months of service for the year.

Number of Months of Service	Amount of Tax Credit	Number of Months of Service	Amount of Tax Credit
1	\$8	7	\$58
2	\$17	8	\$67
3	\$25	9	\$75
4	\$33	10	\$83
5	\$42	11	\$92
6	\$50	12	\$100

If an individual serves in more than one position as a volunteer firefighter, volunteer EMS personnel, and reserve peace officer, the credit can only be claimed for one volunteer position. One credit can be claimed on the IA 1040.

Taxpayers claiming the tax credit are required to have a written statement from the fire chief, the chief of police, sheriff, commissioner of public safety, or other appropriate supervisor verifying that the individual was a volunteer for the number of months that are being claimed.

These letters do not have to be included with a filed return, but must be produced by the taxpayer upon request by the Iowa Department of Revenue (IDR). Married Separate Filers:

This credit must be taken by the spouse who qualifies. Any unused part of this credit cannot be used by the other spouse.

Why use the Tax Reduction Worksheet?

Taxpayers using filing status 1, Single, and not claimed as a dependent on another person's Iowa return may owe less tax by using this worksheet.

Taxpayers using filing status 1 are not eligible to use the alternate tax computation. However, a single taxpayer who is not claimed as a dependent on another person's Iowa return cannot have a tax amount on line 47 of the IA 1040 that would reduce the combination of net income from line 26 plus any pension exclusion from line 21 of the IA 1040, any reportable Social Security benefits on line 11 of the Social Security Worksheet, and any lump-sum distribution income subject to tax on federal form 4972 to less than \$9,000 (\$24,000 if you are 65 or older as of 12/31/17).

If subtracting line 47 from the total of lines 21, 26, reportable Social Security benefits, and any lump-sum distribution income subject to tax on federal form 4972 results in a difference of less than \$9,000 (\$24,000 if you are 65 or older as of 12/31/17), the entry on line 47 must be reduced as calculated on the worksheet below.

The carryover of a Net Operating Loss claimed on the IA 1040 must be added back to net income, line 26.

OUT-OF-STATE TAX CREDIT

All income an Iowa resident earns is taxable to Iowa to the same extent that it is taxable on the federal return even if the income was earned in another state, local jurisdiction in another state, or foreign country. If another state, local jurisdiction in another state, or foreign country taxes that same income, then the Iowa resident may be able to claim a credit on this line. Use form IA 130 to compute the Out-of-State Tax Credit.

- Nonresidents of Iowa cannot claim this credit.
- Part-year residents of Iowa may claim this credit only if the income they earned during that part of the year that they were Iowa residents was also taxed by another state, local jurisdiction in another state, or country.
- The state, local, or foreign income tax imposed on your income is the tax shown on the income tax return you filed with that state, local jurisdiction in another state, or country. It is not the amount that was withheld from your wages.
- An IA 130 form must be figured separately for each state, local jurisdiction in another state, or foreign country. Separate IA 130s are not required for foreign taxes paid by mutual funds or other regulated investment companies.
- The combined total of all credits cannot exceed the Iowa tax liability.
- This credit cannot be claimed for taxes paid on S corporation income passed through to the taxpayer if that income is apportioned through a claim to the S Corporation

Apportionment Tax Credit on line 52.

- Individuals using filing status 3 (Married Filing Separately on a Combined Return) or status 4 (Married Filing Separate Returns) must complete a separate form IA 130 for each spouse.

In order to receive the credit, a complete copy of your income tax return(s) filed with the other state(s) must be submitted with your Iowa return, along with a copy of the IA 130. If you are claiming the credit for taxes paid to a foreign country, include a copy of federal form 1116, Foreign Tax Credit if it is required with your federal return.

Special Instructions for Alternative Minimum Tax or Lump-sum Distribution Tax

If you were assessed an alternative minimum tax or a special tax on a lump-sum distribution by another state or items similarly taxed on your Iowa return, you must separately compute an out-of-state credit for each of these items. Do not include alternative minimum tax or a special lump-sum tax when computing the regular tax credit.

Alternative Minimum Tax

Report the amount of preference items taxed by the other state on line 1. However, a preference item may be included in line 1 only if it is also a preference item for Iowa purposes. Divide the amount on line 1 by the total amount of tax preferences taxed by Iowa. Enter this amount on line 2. Enter on line 4 the alternative minimum tax figure from line 41, IA 1040. On line 6, report only the portion of the alternative minimum tax liability from the other state which applies to preference items which were also taxed by Iowa.

Lump-Sum Distribution

Report on line 1 the amount of distribution subject to special lump-sum tax by the other state. Do not include distribution taxed by other state as part of gross income. Utilize the total lump-sum distribution taxed by Iowa to compute the percentage on line 3 and report on line 4 the Iowa Lump-Sum Distribution Tax from line 40, IA 1040.

Agricultural Assets Transfer Tax Credit

A tax credit for established farmers who lease agricultural asset transfers to beginning farmers is available to claim against - for individual and corporation income taxpayers.

The tax credit is only allowed for agricultural assets that are subject to a lease or rental agreement for a term of at least two years, but not more than five years. The taxpayer must meet certain qualifications as established by rules adopted by the Iowa Finance Authority. The beginning farmer must meet the requirements listed in Section 16.79.

The tax credit equals 7% of the amount paid to the taxpayer under a cash rent agreement or 17% of the crop share payments under an agreement in which the payment is exclusively made from the sale of crops or animals.

If the beginning farmer is a veteran, the credit is 8% or 18% for the first year of the agreement.

A tax credit certificate is issued by the Iowa Agricultural Development Division of the Iowa Finance Authority that includes the tax credit certificate number which must be reported on the IA 148 Tax Credits Schedule when the tax credit is claimed using tax credit code 17. Any tax credit in excess of the tax liability is not refundable, but if awarded in tax year 2008 or later, can be carried forward for the following ten years or until depleted, whichever is earlier. If the tax credit is issued to a partnership, limited liability company, S corporation, estate, or trust, the tax credit can be claimed by the individual based on the pro rata share of the income of the entity.

The lease or rental agreement may be terminated by either the taxpayer or the beginning farmer. If the Iowa Agricultural Development Division determines that the taxpayer is not at fault for the termination, the Division will not issue a tax credit certificate for subsequent years, but any prior tax credit certificates issued will be allowed. If the Division determines that the

taxpayer is at fault for the termination, any prior tax credit certificates issued will be disallowed, and the tax credits can be recaptured by the Department of Revenue.

The facilities approved cannot exceed 363 megawatts of nameplate generating capacity related to wind energy facilities, and cannot exceed the combined output of 63 megawatts of capacity and 167 billion BTUs of heat related to other facilities. Of those 63 megawatts, 10 megawatts are reserved for solar facilities contracted or owned by certain utility companies.

Small wind energy systems operating in a small wind innovation zone are eligible for the renewable energy tax credit of 1.5 cents per kilowatt-hour of electricity. The small wind energy system must have a nameplate generating capacity of 100 kilowatts or less.

A political subdivision of the state of Iowa, including but not limited to a city, county, township, school district, community college, area education agency, institution under the control of the state board of regents, or any other local commission, association, or tribal council can seek approval from the Iowa Utilities Board to set up a small wind innovation zone.

When the tax credit is awarded by the Iowa Department of Revenue, the taxpayer receives a tax credit certificate number that must be reported on the IA 148 Tax Credits Schedule when the tax credit is claimed using tax credit code 10. Any tax credit in excess of the tax liability can be carried forward for seven years. The credit can be transferred to any person or entity one time. A producer or purchaser can receive the tax credit certificates for a 10-year period beginning the date the purchaser first purchases eligible energy or the date the producer first uses the energy for on-site consumption.

Adoption Tax Credit

For tax years beginning on or after January 1, 2017, an Adoption Tax Credit is available for individual income tax equal to the first \$5,000 of unreimbursed expenses related to an adoption per each child placed in Iowa; the tax credit was limited to \$2,500 for tax years 2014 through 2016. There is no limit on the amount of income earned by an individual to be eligible for the credit.

The Adoption Tax Credit can only be claimed once the adoption has been finalized. Only qualified adoption expenses paid or incurred during the tax year are eligible for the credit claimed in that tax year. If qualified adoption expenses were paid or incurred in an earlier year, but in 2014 or later, an amended return can be filed for that earlier year claiming the Adoption Tax Credit. All claims for the adoption of a child cannot exceed the applicable limit based on the year the adoption became final.

A part-year resident of Iowa may claim the credit if he/she was a resident of Iowa at the time the child was permanently placed.

The IA 177 is used to compute the credit and must be included with the Iowa income tax return. The tax credit must also be reported on the IA 148 Tax Credit Schedule using tax credit code 66. If multiple children are adopted in a tax year, complete a separate IA 177 for each Adoption Tax Credit and report each claim on a separate line on the IA 148. Any tax credit in excess of tax liability is refundable.

Any adoption expenses applied to the Adoption Tax Credit are excluded from the calculation of the Iowa itemized deduction for adoption expenses taken on line 27 of the IA 1040 Schedule A. The itemized deduction equals the expenses in excess of three percent of adjusted gross income. For example, if a taxpayer has \$100,000 of adjusted gross income and \$8,500 of adoption expenses, the taxpayer can claim a \$5,000 Adoption Tax Credit and \$500 of itemized deductions for adoption expenses. Only \$5,500 of expenses are available for a deduction, and \$5,000 are used to claim the tax credit.

Biodiesel Blended Fuel Tax Credit

A retail dealer of diesel fuel who sells B5 or higher blends of biodiesel during the tax year at a retail motor fuel site can claim a Biodiesel Blended Fuel Tax Credit. B5 or higher blends are biodiesel blended fuels with a biodiesel content of 5% and higher by volume. Tank wagons are considered retail motor fuel sites.

For gallons sold before January 1, 2018, the tax credit equals 4.5 cents per gallon of biodiesel blended fuel with a blend of 5% or higher. For gallons sold on or after January 1, 2018, the tax credit equals 3.5 cents per gallon of biodiesel with a blend between 5% and 10% biodiesel and 5.5 cents per gallon of biodiesel with a blend of 11% or higher. The IA 8864 is used to compute the credit and must be included with the Iowa income tax return. The Biodiesel Blended Fuel Tax Credit must be reported on the IA 148 Tax Credits Schedule using tax credit code 52. Any tax credit in excess of tax liability is refundable. If the tax credit is earned by a partnership, limited liability company, S corporation, estate, or trust, the tax credit shall be claimed by the individual based on the pro rata share of the income of the entity. The credit is repealed on January 1, 2024.

Iowa Code Section 422.11P

Claim of Right Tax Credit

A Claim of Right Tax Credit may be claimed by a taxpayer who repaid income during the 2017 tax year that was reported and taxed on a prior Iowa income tax return. To calculate the credit, recompute tax liability in the prior tax year excluding the repaid income. The Claim of Right Tax Credit equals the calculated reduction in tax liability in that prior year. However, it may be more advantageous to report the amount of repaid income as an income adjustment on line 24. You may claim either the Claim of Right Tax Credit or take a deduction of the amount repaid on line 24, but not both.

Example of Claim of Right Tax Credit: A taxpayer received a \$5,000 bonus in 2015 and reported it on the 2015 Iowa return. In 2017 the taxpayer's employer advised that the bonus was awarded in error and was to be repaid. The bonus was repaid by the end of 2017. After

recomputing the 2015 Iowa return, there is a \$440 reduction in tax. The taxpayer may claim a credit of \$440 on line 62 of the 2017 Iowa return or apply an income deduction of \$5,000 on line 24. The Claim of Right Tax Credit must be reported on the IA 148 Tax Credits Schedule using tax credit code 53. Any tax credit in excess of the tax liability is refundable.

Iowa Code Section 422.5(11)

E15 Plus Gasoline Promotion Tax Credit

A retail dealer of gasoline who sells E15 plus gasoline during the tax year at a retail motor fuel site can claim an E15 Plus Gasoline Promotion Tax Credit. E15 plus gasoline is ethanol blended gasoline with an ethanol content between 15% and 69% by volume. Tank wagons are considered retail motor fuel sites.

The tax credit equals three cents per gallon of E15 plus gasoline sold between between January 1 and May 31 or September 16 and December 31. The tax rate is ten cents per gallon sold between June 1 and September 15. The IA 138 form is used to compute the credit and must be included with the Iowa income tax return. A taxpayer may claim the E15 Plus Gasoline Promotion Tax Credit even if the taxpayer claims the Ethanol Promotion Tax Credit for the same ethanol gallons.

The E15 Plus Gasoline Promotion Tax Credit must be reported on the IA 148 Tax Credits Schedule using tax credit code 65. Any tax credit in excess of tax liability is refundable. If the tax credit is earned by a partnership, limited liability company, S corporation, estate, or trust, the tax credit shall be claimed by the individual based on the pro rata share of the income of the entity. The credit is repealed on January 1, 2025.

Iowa Code Section 422.11Y

E85 Gasoline Promotion Tax Credit

A retail dealer of gasoline who sells E85 gasoline during the tax year at a retail motor fuel site can claim an E85 Gasoline Promotion Tax Credit. E85 gasoline is ethanol blended gasoline with an ethanol content between 70% and 85% by volume. Tank wagons are considered retail motor fuel sites.

The tax credit equals sixteen cents per gallon of E85 gasoline sold. The IA 135 form is used to compute the credit and must be included with the Iowa income tax return. A taxpayer may claim the E85 Gasoline Promotion Tax Credit even if the taxpayer claims the Ethanol Promotion Tax Credit for the same ethanol gallons.

The E85 Gasoline Promotion Tax Credit must be reported on the IA 148 Tax Credits Schedule using tax credit code 55. Any tax credit in excess of tax liability is refundable. If the tax credit is earned by a partnership, limited liability company, S corporation, estate, or trust, the tax credit shall be claimed by the individual based on the pro rata share of the income of the entity. The credit is repealed on January 1, 2025.

Iowa Code Section 422.11O

Ethanol Promotion Tax Credit

A retail dealer of gasoline who sells ethanol gasoline during the tax year at a retail motor fuel site may be able to claim an Ethanol Promotion Tax Credit. Tank wagons are considered retail motor fuel sites.

Eligibility for the tax credit and the amount of the tax credit depends on whether the retail dealer attains a biofuel threshold percentage, and how many gallons of motor fuel are sold in a year. The biofuel threshold percentages for retail dealers who sell more than 200,000 gallons at all retail locations in a calendar year, and for dealers who sell 200,000 gallons or less at all retail locations in a calendar year, are shown below. The credit is repealed on January 1, 2021.

2020	25%	25%

Effective for tax year 2011, retailers must declare whether they will calculate the tax credit companywide or separately for each retail motor fuel site. For any year in which the retail dealer has met the threshold, the tax credit is 8 cents for each gallon of pure ethanol sold. If the retail dealer misses the threshold by 2 percentage points or less, the tax credit equals 6 cents for each gallon of pure ethanol sold. If the retail dealer misses the threshold by more than 2 percentage points but not more than 4 percentage points, the tax credit equals 4 cents for each gallon of pure ethanol sold. If the retail dealer misses the threshold by 4 percentage points or more, then no tax credit is allowed.

The retail dealer determines its biofuel distribution percentage by summing the pure ethanol gallons and the pure biodiesel gallons sold during the calendar year, and dividing this sum by the total gasoline gallons sold during the calendar year. While the biodiesel gallons are included in the computation of the biofuel distribution percentage to determine if the retailer met the biofuel threshold percentage, only the pure ethanol gallons sold are used in determining the amount of the Ethanol Promotion Tax Credit.

Example: A retail dealer only operates one retail motor fuel site. The number of gallons of gasoline sold at this site in 2017 equals 100,000 gallons. This consisted of 10,000 gallons of E85, 5,000 gallons of E15, 80,000 gallons of E10, and 5,000 gallons not containing ethanol. The dealer also sold 15,000 gallons of diesel fuel at this site during 2017, of which 5,000

gallons was B11 (11% biodiesel). The pure ethanol gallons is 16,650 (10,000 x 79% = 7,900. 5,000 x 15% = 750. 80,000 x 10% = 8,000. 7,900 + 750 + 8,000 = 16,650). The pure biodiesel gallons sold is 550, or 5,000 x 11%. The total of 16,650 and 550, or 17,200, is divided by the total gasoline gallons sold of 100,000 to arrive at a biofuel percentage of 17.5%. Since this exceeds the 17% threshold for a dealer selling less than 200,000 gallons, the credit is 8 cents x 16,650, or \$1,332.

The IA 137 form is used to compute the credit and must be included with the Iowa income tax return. A retail dealer of gasoline will be able to claim the Ethanol Promotion Tax Credit even if the dealer claims an E85 Gasoline Promotion Tax Credit or the E15 Plus Gasoline Promotion Tax Credit for the same tax year for the same ethanol gallons sold. For retail dealers of gasoline whose tax year is not on a calendar year basis, the retail dealer shall compute the tax credit on the gallons of pure ethanol sold during the year using the applicable credit amounts as shown above. The Ethanol Promotion Tax Credit must be reported on the IA 148 Tax Credits Schedule using tax credit code 64. Any tax credit in excess of tax liability is refundable. If the tax credit is earned by a partnership, limited liability company, S corporation, estate, or trust, the tax credit shall be claimed by the individual based on the pro rata share of the income of the entity.

PENALTY FOR UNDERPAYMENT OF ESTIMATED TAX

Line: 74

Step: 12

Step Subject: Pay

Year: 2017

If you are required to make estimated tax payments but fail to make the payments, you may be subject to a penalty in addition to any tax you may owe. The penalty is determined in the same way as for federal purposes. Consequently, you must include your Iowa income, lump-sum, and alternative minimum taxes when calculating the penalty for underpayment of estimated tax.

If you are subject to this penalty, complete IA 2210, IA 2210F (for farmers and commercial fishers), or IA 2210S and enter the penalty on this line. Include a copy of the IA 2210, IA 2210F, or IA 2210S with your tax return. If you elect to use the annualized method of computing the penalty, include a copy of your IA 2210 Schedule AI (Annualized Income Installment Method) with your tax return.

If you are due a REFUND, subtract the penalty amount from the overpayment you show on line 71 or line 72.

More information on the IA 2210, with examples

Individuals who expect to owe Iowa tax of \$200 or more for the tax year from income not subject to Iowa withholding tax must make quarterly estimated tax payments. These payments may be made through eFile & Pay (direct debit) on our website or with an IA 1040ES form.

PENALTY AND INTEREST

Line: 75

Step: 12

Step Subject: Pay

Year: 2017

75. PENALTY AND INTEREST.

Enter the penalty on line 75a, the interest on line 75b, and the total on line 75.

75a. Penalty

10% Penalty for Failure to Timely File a Return:

If you do not file your return by the due date and at least 90% of the correct tax is not paid, you owe an additional 10% of the unpaid tax.

5% Penalty for Failure to Timely Pay the Tax Due:

If you file your return on time but do not pay at least 90% of the correct tax due, you owe an additional 5% of the unpaid tax.

You will never be subject to both the 5% and 10% penalties. The penalty will be the applicable 5% or 10%, but not a total of 15%.

If 90% of the correct tax due is paid by the due date, then no penalty is due. To determine if 90% was paid, multiply line 56 of the IA 1040 by 90%. If the result is equal to or less than the amount on line 69 of the IA 1040, plus any payment made with a return filed by the due date, 90% of the tax has been paid timely and no penalty is due.

75% Penalty for fraud or frivolous income tax return filings:

A person who willfully intends to make a false or frivolous tax return to claim a refund, or to evade tax is guilty of fraud. A penalty of 75% of the refund claimed will be due.

\$500 Civil Fraud Penalty:

A \$500 Civil Penalty is assessed when a return considered to be a “frivolous return.” A return which lacks sufficient information to calculate a tax amount or is substantially incorrect. A return may also be assessed the penalty that reflects a position of law which is frivolous or is intended to delay or impede the administration of the tax laws of this state.

75b. Interest

Interest must be added to delinquent tax. Interest is added at a rate of 0.5% per month beginning on the due date of the return (April 30) and accrues each month until paid in full. Part of a month constitutes a whole month, so if you pay the tax on June 3, you are late for May and June for a total interest rate of 1.0% (2 x 0.5%).

ARE YOU A RESIDENT OF IOWA FOR TAX PURPOSES?

Year: 2017

A person can be a resident of only one state at any given time. Usually, it is clear which state that is. Normally, it is the state in which one lives and works. Occasionally, however, the question of residency can be a little more difficult to answer. If a person moves during the year, or for some reason spends an extended period of time outside the state, the actual state of residence may not always be as obvious.

Intent of Individual

The issue of residency hinges mainly on the intent of the individual. That intent is often clear and easy to determine. If a person moves from one state to another with the intent of changing residence, that person will take certain actions. He or she will typically take obvious steps to eliminate ties and contacts with the former state, and establish similar ties and contacts with the new state. In some cases, however, the actions taken by the individual may create some confusion as to the actual intent.

Factors to Measure Intent

When a person's intent is not readily apparent, several factors are used as a guide to measure that intent. No single factor can be used. All the facts and circumstances of the case must be weighed in their totality to determine a person's intent and residency.

Some of the factors used in this analysis are listed below:

- Are you registered to vote in Iowa?
- Have you voted in Iowa? (in person or by absentee ballot)
- Do you or any of your family attend Iowa schools?
- Do you have an Iowa telephone listing and service?
- Do you receive your mail in Iowa?
- Do you have an Iowa driver's license?
- Do you hold any business or professional licenses in Iowa?
- Do you hold an Iowa hunting or fishing license?
- Is your automobile registered in Iowa? Do you have Iowa license plates?
- Are any boats or recreational or all-terrain vehicles registered in Iowa?
- Do you own a home in Iowa?
- Is your home larger than your home in any other state?
- Do you claim homestead and/or military credits for property tax?
- Do you keep your valuables, mementos, collections, jewelry, or prized personal possessions in Iowa?
- Do you live in Iowa for more days of the tax year than in any other state?
- Do you live in any other state for more days of the tax year than in Iowa?
- Do you receive income from an Iowa source?
- Do you receive services from doctors, dentists, attorneys, CPAs, or any other professionals located in Iowa?

- Do you have an active membership in an Iowa church, club, professional or civic organization in Iowa, and participate as a result of the membership?
- Do you claim a benefit on the federal income tax return based on an Iowa home being the principal place of business?
- Do you have active checking or savings accounts or use of safe deposit boxes located in Iowa?
- Do you have a location of employment in Iowa or active participation in a business within Iowa?
- Is Iowa the state of residency in your Last Will and Testament?

Please keep in mind that no single factor will typically be sufficient to make a residency determination. When viewed as a whole, the answers to the above questions will generally give a good indication as to the individual's intent, and therefore, to the state of residence.

Residency Rules

For more details on the subject of residency, including several examples, please refer to Iowa Rule 701-38.17.

Military Members and Spouses

Members of the military and their spouses should reference Iowa Tax Responsibilities of Military Personnel for additional information.

CERTIFIED TAX RETURNS FOR NONRESIDENTS

Year: 2017

Residents of other states who need a certified copy of the Iowa return for filing with their state of residence must include an extra copy of their Iowa return and a self-addressed stamped envelope when they file. CONFIDENTIALITY

Year: 2017

Taxpayers provide confidential tax information to the Iowa Department of Revenue (IDR) in the form of individual income tax returns and other Iowa schedules, forms, and supporting documentation.

Your tax information is kept confidential by IDR, with a few exceptions as required by law. Most notably, information from your return may be made available to the Internal Revenue Service or to tax officials of another state for tax administration purposes.

Any IDR employee who discloses tax return information without legal authority is guilty of a serious misdemeanor, subject to a fine and any civil damages.

If you do not provide Individual income returns and/or the necessary information to support the return, or if you provide fraudulent information, you may be charged penalties and interest and may be subject to criminal prosecution.

CONSUMER'S USE TAX - *Information for Businesses and Individuals*

Year: 2017

Do you purchase items from out of state or from catalogs, magazines, or vendors who advertise on television or radio, or through the Internet? Will those items be used in Iowa? Would they be subject to Iowa sales tax if purchased in Iowa?

Are you paying tax on those purchases? If not, you owe Iowa use tax on the purchase price. This tax was established in 1937, three years after the sales tax was enacted, to create a fair playing field for Iowa businesses.

If you purchase tangible personal property for use in Iowa and the seller does not charge you Iowa tax on the purchase, you owe a 6% tax known as the consumer's use tax on the price of the purchase.

Individuals:

Individuals without a permit who rarely make purchases subject to consumer's use tax should pay their tax in one of the following ways:

- Electronically through eFile & Pay
- Complete the worksheet available on the Department's website and send to:

Iowa Department of Revenue

PO Box 10412

Des Moines, IA 50306-0412

Make check payable to: "Treasurer, State of Iowa"

Anyone who regularly purchases merchandise from out of state for his or her own use in Iowa should register for a consumer's use tax permit and pay the tax on a quarterly basis.

Businesses:

Businesses making taxable purchases on a regular basis should register with the Iowa Department of Revenue to file consumer's use tax returns. However, some businesses may only occasionally make purchases for their own use and owe Iowa consumer's use tax. If this type of purchase is not typical for your business, instead of separately registering for consumer's use tax, you can report the purchase on Line 2 "goods consumed" of your quarterly sales tax return or file and pay the tax as outlined for individuals above.

For more information, see our Consumer's Use Tax page.

CREDITS: REFUNDABLE OR NONREFUNDABLE - WHAT'S THE DIFFERENCE?

Year: 2017

Although Iowa and the IRS may have the same type of credit, it may or may not be refundable on both returns.

Nonrefundable Tax Credit

A nonrefundable tax credit will reduce your tax liability. This credit may reduce your tax liability down to zero, but it will never generate a refund. An example of this type of credit is the Tuition and Textbook Credit or any other credit taken in Step 9 of the IA 1040 individual income tax form.

Refundable Tax Credit

A refundable tax credit will also reduce your tax liability. However, if this tax credit exceeds your tax liability it will generate an Iowa refund. An example of this type of credit is the Iowa Child and Dependent Care Credit or any other credit taken in Step 10 of the IA 1040 individual income tax form, with the exception of the Taxpayer Trust Fund Credit.

ESTIMATED PAYMENTS

Year: 2017

Iowa Residents

Iowa residents who expect to owe tax of \$200 or more for 2017 from income not subject to withholding tax must make estimated tax payments to avoid a penalty for underpayment of estimated tax.

Farming or Commercial Fishing

If at least 2/3 of your income is from farming or commercial fishing, you may avoid penalty for underpayment of estimated tax in one of the following ways: (1) You may pay the estimated tax in one payment on or before January 16, 2018, and file your return by April 30, 2018, or (2) you may file your return and pay the tax in full by March 1, 2018.

Nonresidents

Nonresidents with nonwage income from Iowa, see [IA 1040ES instructions \(pdf\)](#).

Married Taxpayers

Each individual required to make estimated payments must file an estimated payment under his/her name and Social Security Number.

How to Pay

You can set up your payments to be automatically deducted from your bank or credit union account using [ePay \(free direct debit\)](#) on our website.

If you wish to make your payments with paper, you must use the [IA 1040ES form \(pdf\)](#).

Estimated payments may also be made by [credit or debit card](#).

EXTENSION REQUESTS

Year: 2017

The Department does not have an extension form to obtain additional time to file. A federal extension does not apply for Iowa purposes.

If at least 90% of your total tax liability is paid by April 30, 2018, you will automatically have an additional six months to file your return. You have until October 31, 2018, to file your return timely. You will not be charged a late file penalty. However, you may owe a 2210 penalty for failure to make estimated payments. You will owe interest on any tax still due after April 30.

How to determine if 90% of the tax you owe has already been paid:

Multiply the amount on line 56 of the IA 1040 by 90% (0.90).

If the result is equal to or less than the amount on line 69 of the IA 1040, an extension is automatic.

Example:

Line 56 = \$5,000

$\$5,000 \times 90\% = \$4,500$

Line 69 = \$4,000

90% of the tax has not been paid. No extension is available to this taxpayer. This taxpayer will owe penalty and interest on the unpaid tax.

Example:

Line 56 = \$3,000

$\$3,000 \times 90\% = \$2,700$

Line 69 = \$2,850

This taxpayer receives an automatic extension until October 31, 2018 and will pay only interest on the unpaid tax.

If you need to make a tax payment to meet the 90% requirement, you may:

- arrange payment from your bank account through eFile & Pay (direct debit) on our website.
- pay by credit / debit card online or by telephone
- use the IA 1040V (pdf) payment voucher form

To learn about calculating IA 2210 penalty, take a look at IA 2210 information and examples.

FARMERS AND COMMERCIAL FISHERS

Year: 2017

If at least 2/3 of your income is from farming or commercial fishing, you may avoid penalty for underpayment of estimated tax in one of the following ways:

- (1) Pay the estimated tax in one payment on or before January 16, 2018, and file the Iowa income tax return by April 30, or
- (2) File the Iowa income tax return and pay the tax due in full on or before March 1, 2018.

HOW TO PRORATE

Year: 2017

HOW TO PRORATE

Taxpayers using filing status 3 (married Filing Separately on a Combined Return) or status 4 (Married Filing Separate Returns) may be required to prorate (divide) certain entries on the IA 1040, such as reportable Social Security benefits, federal income tax refunds, estimated federal tax payments, itemized deductions, etc.

Example 1: How spouses would prorate a federal refund:

2016 federal refund received in 2017 from a jointly-filed return: \$1,000

Spouse A has net income of \$15,000 on the 2016 IA 1040.

Spouse B has net income of \$30,000 on the 2016 IA 1040.

Total net income: \$45,000 on the 2016 IA 1040.

Divide Spouse B's net income by total income.

The result is the percent of total income earned by Spouse B.

(Spouse B's net income) \$30,000 = 66.7%

(Total of both spouse's net income) \$45,000

Then take \$1,000 X 66.7% = \$667. This is Spouse B's portion of the refund, reported on line 27 in column B.

Spouse A's portion is $\$1,000 - \$667 = \$333$, which is entered on line 27 in column A. These two amounts are entered on line 27 of the 2017 IA 1040.

Note: Round to the nearest one-tenth of a percent. For example, 66.74% becomes 66.7% and 66.75% becomes 66.8%

Example 2: How to prorate Social Security

Spouse A receives Social Security benefits of \$30,000
Spouse B receives Social Security benefits of \$20,000
Total benefits are \$50,000

Divide Spouse A's benefits - \$30,000 - by the total benefits - \$50,000.
The result - 60% - is the percent of total benefits earned by Spouse A.

Complete the Iowa Social Security worksheet to determine what amount is reportable to Iowa. In this example, the total reportable Social Security benefits are \$8,000. Now prorate the \$8,000 between spouses.

Multiply \$8,000 by 60%, which equals \$4,800. This is Spouse A's portion of reportable Social Security benefits to be entered in column A of step 4.

Spouse B's portion is $\$8,000 - \$4,800 = \$3,200$ which is entered in column B of step 4.

Example 3: Federal estimated tax payment proration

Spouse A has income of \$75,000 that is not subject to federal withholding.
Spouse B has income of \$8,000 that is not subject to federal withholding.
Their total income not subject to federal withholding is \$83,000.
The estimated federal tax payments for this year totaled \$18,000.

Divide Spouse A's income by the total. The result is the percent of income earned by Spouse A.

Spouse A's income not subject to federal withholding = $\$75,000 = 90.36\%$ (90.4%)
[Total of both spouses' income not subject to federal withholding = \$83,000]

Multiply \$18,000 by 90.4% = \$16,272. This is Spouse A's portion to be entered on line 32 in column A.

Spouse B's portion is $\$18,000 - \$16,272 = \$1,728$, which is entered on line 32 in column B.

INSTRUCTIONS FOR SCHEDULE IA 126 FOR NONRESIDENTS AND PART-YEAR RESIDENTS

Year: 2017

You will need to complete the IA 1040 Form lines 1 through 47 using income from all sources before you can complete the IA 126.

Nonresidents and part-year residents of Iowa will use the IA 126 to calculate Iowa-source income. NOTE: The Iowa income percentage is rounded to the nearest tenth of a percent in accordance with rule 701-42.5. The final credit from this form is used as a credit to reduce total tax on your IA 1040.

Enter the amount of credit from line 33, IA 126, on line 48, IA 1040.

[IA 126 form and instructions](#) (pdf)

Part-Year Iowa Residents:

Iowa net income includes all income received while living in Iowa plus any Iowa-source income received while a nonresident.

Part-Year Resident Example: Jill lived and worked in Iowa the first six months of the tax year. In addition to her wages, she received interest income from an Iowa bank. Jill then moved to Missouri, where she was employed for the rest of the year. She continued to receive interest income from the Iowa bank.

Jill will report all of her income from both states on the IA 1040 as all-source income. On the IA 126, she will report only the wages and interest income earned while an Iowa resident as Iowa-source income. The interest income earned the last half of the year is not considered Iowa-source income since Jill was no longer an Iowa resident.

Nonresidents:

Iowa net income will include all income from Iowa sources. Complete lines 1 through 26 of the IA 126 using only income from Iowa sources.

Nonresident Example 1: Chad is a resident of Nebraska and works in Iowa. His income includes wages earned in Iowa and interest income from a Nebraska bank. Chad will report the wages and interest on the IA 1040 as all-source income. He will list his wages only on the IA 126 as his Iowa-source income.

Nonresident Example 2: Laura is a resident of Illinois. She earned \$25,000 in wages from Iowa and won \$5,000 at an Iowa casino. She will report all of her income on the IA 1040 as all-source income. Only the gambling winnings will be reported on the IA 126 as her Iowa-source income.

Full-Year Residents (married filers check this box if one spouse is a full-year Iowa resident)

If the Iowa full-year resident box is checked for one spouse, that spouse will report income and adjustments to income from all sources from lines 1-26 of the IA 1040.

Iowa has a reciprocal agreement with Illinois, which means that wages and salaries are taxed by the individual's state of residence. All income received from gambling in Iowa is taxable to Iowa regardless of the person's state of residence.

Married Separate Filers:

Divide your Iowa income between spouses using the instructions given for the corresponding line on the IA 1040 for married separate filers.

1. Wages, Salaries, Tips, Etc.

Part-Year Residents:

Include all W-2 income earned or received while an Iowa resident, even if it was earned in another state, and any income for services performed in Iowa while a nonresident of the state. If it was earned in another state, you may also need to fill out the [IA 130](#) (pdf) if you pay tax to the other state or local jurisdiction in another state. You will need to check with that state for their filing requirements.

Nonresidents:

Report only Iowa-source income. If the portion of employee compensation earned in Iowa by a nonresident is not reported separately, allocate the compensation based upon the number of days worked in Iowa to total work days.

Severance pay and vacation pay from Iowa employment are Iowa-source income even if the pay was received after leaving Iowa.

Note to Nonresident Military Taxpayer:

As a result of federal legislation, the nonresident military taxpayer does not include military pay on line 1 of the IA 126 (nor is it reported on the IA 1040). In general, this applies to active duty military and does not include the National Guard or reserve personnel.

Paid direct by taxpayer: Multiply the health insurance premiums that you paid by the ratio of your Iowa-source net income on line 26 of the IA 126 to total net income on line 26 of the IA 1040. For this net income calculation, do not include line 18, the health insurance deduction in the above-referenced net income amounts.

Excess advance premium tax credit repayment: Enter the amount from line 46 of the federal 1040 multiplied by your 2016 Iowa income percentage. If you filed a 2016 IA 126, your 2016 Iowa income percentage is shown on line 28 of the 2016 IA 126. IOWA 2210 / 2210S GENERAL INFORMATION

Year: 2017

Either the IA 2210 or IA 2210S is used to determine if an individual taxpayer paid income tax sufficiently throughout the year. This form is used to calculate any penalty due.

You may use the short method (IA 2210S) for 2210 penalty if:

- You did not make any estimated payments, or
- You paid the same amount of estimated tax on each of the four payment due dates.

You must use the regular method (IA 2210) to calculate your 2210 penalty if:

- You made any estimated tax payments late,
- You choose to annualize your income for 2210 penalty calculations.

Note: If any payment was made earlier than the due date for that payment, you may use the short method, but using it may cause you to pay a larger penalty than the regular method. If the payment was only a few days early, the difference is likely to be small.

To find out if you owe 2210 penalty, complete the IA 1040 through line 72 then complete the IA 2210 or IA 2210S. You will need the amount of tax you paid Iowa in 2016 in addition to completing the 2017 Iowa return.

Absent fraud or misrepresentation, individual taxpayers with only W-2 wages / income are not subject to 2210 penalty and do not complete the IA 2210 or IA 2210S.

Taxpayers who do not have Iowa tax withheld from their paychecks must pay Iowa tax on their income by making Iowa estimated tax payments on a quarterly basis.

Estimated Payments

If you file returns on a calendar-year basis and are required to file form IA 1040ES, you are generally required to pay the tax in four installments with the first installment due by April 30. You may benefit by using the [IA 2210 Schedule AI](#) (pdf) Annualized Income Installment Method if your income varied during the year.

Calendar-Year Taxpayers: If you are not required to file estimated payments until later in the year because of a change in your income or exemptions, you may be required to pay in fewer installments.

IA 2210 Schedule AI Information

Nonresident or Part-Year Resident Credit: This credit must be computed on the IA 126 for each period as follows:

1. Figure the Iowa-source gross income less any adjustments for the period. Multiply this income figure by the number for the corresponding period on line 2 of Schedule AI and enter on the IA 126, line 26.
2. Enter the amount from line 3 of Schedule AI on the IA 126, line 27.
3. Calculate the Iowa income percentage and the nonresident/part-year resident credit percentage on the IA 126, lines 28 and 29.
4. Enter the tax amount for the period from line 13 of Schedule AI on the IA 126, line 30.
5. Add the credits from lines 16 and 17 of Schedule AI that represent IA 1040, lines 43, 44, and 45. Enter this figure on form IA 126, line 31.

6. Compute the nonresident/part-year resident credit by subtracting the credits on line 31, IA 126 from the tax on line 30, IA 126. Multiply this amount by the percentage on line 29. Enter this number on line 17, Iowa Schedule AI.

Out-of-State Tax Credit form IA 130 must be computed for each period:

The gross income taxed by the other state/country, line 1, IA 130, must be annualized by multiplying by the annualization factor for the period. The gross income for residents, line 2, IA 130, is the amount on line 3, Iowa Schedule AI (if a part-year resident, the amount is taken from line 15, IA 126) for the period. The tax, line 4, IA 130, is the amount on line 13, Iowa Schedule AI for the period. The total tax imposed by the other state/country must be multiplied by a ratio of gross income taxed by the other state/country for the period to total gross income taxed by the other state/country.

Example: Fred, a full-year resident, had \$100,000 of income taxed by another state. The other state's tax imposed was \$4,000 for the year. For the period 1/1/17 to 3/31/17, the income taxed by the other state was \$25,000. The computation for the tax imposed for the period 1/1/17 to 3/31/17 is (\$4,000 times the annualization factor of $4.0 \times 25,000/100,000$).

Please include a worksheet or tax form showing the calculations for each credit claimed on line 17.

Estimated / Installment Payment Periods and Due Dates

The chart below shows the due date for installments and the maximum number of installments required for each. More installments than required may be made in each period.

Period Requirement First Met	Installment is Due	Maximum Number of Installments Required During the Year
Between January 1 and April 1	April 30	4
Between April 2 and June 1	June 30	3
Between June 2 and September 1	September 30	2
After September 1	January 31	1

If any date shown falls on a Saturday, Sunday, or legal holiday, substitute the next regular business day.

Basic IA 2210 Calculation Criteria

- Installment period due dates are important. When a due date is missed, penalty applies in most cases.
- Payments are first carried back to any prior period with an underpayment.
- Any overpayments are carried forward to the next period.
- Any credit carryforward from the prior year is applied to the April 30 installment.
- There may be more than one penalty calculation for an installment period if more than one payment was made in that period.
- Withholding is credited equally in each installment period.

Learn About the IA 2210 Form

The first 13 lines of the 2210 form determine how much tax the taxpayer should have paid.

The second part of the 2210 form determines what the penalty, if any, is on the tax that was not paid. Penalty is determined on a quarterly basis.

IA 2210 Example 1

An individual taxpayer did not make any estimated payments of Iowa income tax throughout the year. The taxpayer paid \$4,000 when filing the tax return on April 30.

Results: The taxpayer should have paid \$1,000 each quarter, for a total of \$4,000 for the entire year. This taxpayer owes 2210 penalty.

IA 2210 Example 2

An individual taxpayer made four estimated payments of Iowa income tax for a total of \$4,000. Although the full amount was eventually paid, some payments were not timely.

Results: This taxpayer owes 2210 penalty. Why? It matters when the payments are made. If they are not timely, penalty is due.

First installment period (due April 30): No payment was made by April 30; therefore, the taxpayer has a \$1,000 underpayment and will be assessed penalty.

- The first payment of the year (\$500) was made June 15. The second (\$2,000) was two weeks later on June 30.

- The underpayment is paid by applying the \$500 paid June 15 and \$500 of the \$2,000 paid June 30.
- The \$500 paid June 15 has a penalty for 46 days (May 1 - June 15). The \$500 paid June 30 has penalty for 61 days (May 1 - June 30).

Second installment period (due June 30): No penalty is charged for this period.

- The taxpayer had \$1,500 remaining from the \$2,000 paid June 30 to apply to this period.
- Of the remaining \$1,500, \$500 is carried forward to the next installment.
Third installment period (due September 30): Penalty is charged for this period. \$500 of the June 30 payment carried over to this period; therefore, the taxpayer still owes \$500 for this period.
- The taxpayer's third payment of \$500 is made January 31, too late for the third period. This amount is applied to the third period.
- Penalty on this \$500 is for 92 days for the October 1 - December 31, quarter AND 31 days for January 1 - 31.

Fourth installment period (due January 31): Since the taxpayer's January 31 payment applied to the third installment, penalty is due on \$1,000.

- The \$1,000 payment made February 25, is applied to this period's underpayment.
- Penalty on the \$1,000 is for 25 days for February 1 - February 25.

IA 2210S Example 1

An individual taxpayer did not make any estimated payments of Iowa income tax throughout the year.

Results: The taxpayer should have paid \$1,000 each quarter, for a total of \$4,000 for the entire year. This taxpayer owes 2210 penalty.

IA 2210S Example 2

An individual's tax liability determined on the IA 1040 was \$4,000. The individual made four estimated payments of Iowa income tax during the year in the amount of \$500 each, for a total of \$2,000. Payment of the remaining \$2,000 due was made on April 15.

Results: All payments were made on time, but the taxpayer should have made a total of \$4,000 in estimated payments of Iowa income tax. This taxpayer owes 2210 penalty.

IOWA AND ILLINOIS RECIPROCAL AGREEMENT

Year: 2017

At this time, Iowa's only income tax reciprocal agreement is with Illinois.

Iowa will tax any Iowa-source income received by an Illinois resident that is not from wages or salaries. Illinois may tax any Illinois-source income received by an Iowa resident that is not from wages or salaries.

Iowa gambling winnings and unemployment compensation for employment in Iowa are examples of income that are not wages and salaries and, therefore, not covered under the Iowa-Illinois Reciprocal Agreement.

Iowa Resident Working for Wages or Salary in Illinois

An Iowa resident working for wages or salary in Illinois should complete and file [Illinois form IL-W-5-NR](#) "Employee's Statement of Nonresidence in Illinois" with the employer so that the employer will withhold Iowa income tax.

Illinois Resident Working for Wages or Salary in Iowa

An Illinois resident working for wages or salary in Iowa should complete and file the [IA 44-016](#) (pdf) "Employee's Statement of Nonresidence in Iowa" with the employer so that the employer will withhold Illinois income tax.

Tax Withheld in Error

If Illinois income tax has been mistakenly withheld from the wages or salary of an Iowa resident, the Iowa resident must file an Illinois income tax return to get a refund. Any questions on how to complete the Illinois return should be directed to the Illinois Department of Revenue at 1-800-732-8866.

Illinois residents who have had Iowa income tax withheld in error from their wages and have no other Iowa-source income must file an Iowa income tax return requesting a refund. They should complete Steps 1, 2, and 3 of the IA1040, show "0" on line 1 of Step 5, line 26 of Step 6, and line 55 of Step 9, write "Illinois resident tax withheld in error" on the face of the return. On the back of the IA 1040 on lines 66, 68, 69, 70, and 71 enter the Iowa tax withheld, sign the return and include copies of W-2s with the return. Copies of federal and Illinois returns must be included.

NOTE: Individuals must be members of Native American Tribes living on their own Sovereign Settlement within the State of Iowa to be exempt from income earned from that same settlement within Iowa. If the individual is not a member of that recognized Native American settlement in Iowa, then income from that settlement in Iowa is Iowa-source income to Iowa residents and nonresidents.

IOWA TAX RESPONSIBILITIES OF MILITARY PERSONNEL

Year: 2017

BEGINNING WITH TAX YEAR 2011: Members of the armed forces, armed forces military reserve, and the national guard in an active duty status (as defined in Title 10 of the U.S. Code) can exclude pay received from the federal government for military service performed.

Active-duty military service pay is taxable only by the state in which the armed forces service member is a legal resident, which is usually the state of residence at the time he/she enters the service. In general, income other than active-duty military service pay of an Iowa resident in military service is taxable to the same extent as it is taxable for federal purposes, even if the Iowa resident is stationed outside of Iowa or outside of the United States.

Iowa residents who are members of the military should include the active duty pay received from the federal government for military service performed as income on line 1 of the IA 1040 and deduct the same active duty pay on line 24. These individuals should provide an IA W-4 to the payer of this income, claiming exemption from withholding on active duty pay. Military members claiming this exclusion should be prepared to send a copy of their active duty military orders if requested by the Department.

When must a military person file an Iowa income tax return?

If a military person is an Iowa resident, he or she must file an Iowa individual income tax return if:

- married and their combined income* totals more than \$13,500 (\$32,000 if you or your spouse is 65 or older on 12/31/17)

- single and total income* is more than \$9,000 (\$24,000 if 65 or older on 12/31/17)
- has income* of \$5,000 or more and is claimed as a dependent on another person's Iowa return
- filing as head of household or qualifying widow(er) and total income* is more than \$13,500 (\$32,000 if you or your spouse is 65 or older on 12/31/17)

*does not include pay received from the federal government for military service performed by members of the armed forces, armed forces military reserve, and the national guard in an active duty status

School District Surtax

The school district surtax is applicable for resident members of the armed forces of the United States living in an Iowa school district, even if the member is not physically present in Iowa on the last day of the tax year. (701 IAC 42.1)

Residency (701 IAC 38.17)

Each person has one and only one state of residence. A person may be a resident of a state even though he or she does not actually live in the state.

A military person does not lose "home state" residency simply by being absent from the state while in the military. (Servicemembers Civil Relief Act)

When is a military person an Iowa resident?

A military person is an Iowa resident if:

- he or she was a resident of Iowa at the time of enlistment and/or
- Iowa is declared as his or her Military Home of Record

A person remains an Iowa resident until positive action is taken to establish residency in another state.

See Are You a Resident of Iowa for Tax Purposes

Establishing residency in another state

To establish residency in another state, a military person should first complete form DD2058, State of Legal Residence Certificate, which is available from the payroll officer of the Military Office of Personnel. This alone does not establish residency. A combination of the actions listed below is required to establish legal residence in another state.

- physical presence in the other state
- registering to vote in the other state
- changing driver's license

- registering vehicles in the other state
- applying for other privileges offered by the other state
- payment of real estate tax and/or income tax in the new state

If steps are not taken to change residency, a military person remains a resident of Iowa and is subject to Iowa income tax laws.

The Director of the Iowa Department of Revenue may require an individual to provide proof that residency has been established in another state.

Residency of spouses of military personnel

A spouse of an Iowa-resident military person is not considered a resident of Iowa simply by marriage. If, however, the spouse was an Iowa resident when they married, the spouse is an Iowa resident until other action is taken to establish residency in another state.

If the spouse is an Iowa resident and has Iowa-source income, it may be beneficial to use filing status 3 (married filing separately on the combined return form).

Filing status 3 or 4 (married filing separately on the combined return or married filing separate returns) may be used by nonresident spouses with no Iowa-source income.

Military spouses please see the information on the Military Spouses Residency Relief Act.

Nonresidents / part-year residents stationed in Iowa

Military persons who are not residents of Iowa are required to file Iowa income tax returns if their all-source income meets the above requirements and their Iowa-source income is \$1,000 or more.

Nonresidents and part-year residents must file both the IA 1040 and the IA 126 with a complete copy of the federal return.

Nonresident Military Income

Beginning with tax year 2003, the following apply for Iowa as a result of federal legislation.

The nonresident military taxpayer does not include military pay on line 1 of the IA 1040 and also does not report it as Iowa income on the IA 126. The net result is a reduction of the tax rate on any other Iowa-source income.

In general, this applies only to active duty military and does not include the National Guard or reserve personnel.

Exceptions may exist if nonresident military are under active duty orders under Section 502(f) of Title 32 of the United States Code.

All income, excluding military pay, is included on the Iowa income tax return (IA 1040) and tax is initially calculated on all-source income. Once this is done, the nonresident or part-year resident turns to another Iowa form, the IA 126 Nonresident and Part-Year Resident Schedule. Only Iowa-source income is included on this form and will not include military pay when calculating the credit. That credit is entered on the IA 1040 and is designed to minimize the taxation of income by Iowa and the other state.

What income is subject to Iowa tax? (701 IAC 40.5)

Military pay to Iowa residents must be included on line 1 of the IA 1040 to the same extent it is included on the federal return regardless of where the person is stationed when it is received.

Other income earned by an Iowa resident stationed in or out of Iowa is also taxable to Iowa to the same extent it is taxable on the federal level. If any of that income is correctly taxed by another state, then Iowa allows an Out-of-State Tax Credit on the IA 1040. This credit is calculated on the IA 130 form, which must be included with the IA 1040 with a copy of the other state's return.

What income is not subject to Iowa tax?

Active duty pay

Members of the armed forces, armed forces military reserve, and the National Guard in an active duty status (as defined in Title 10 of the U.S. Code) can exclude pay received from the federal government for military service performed.

NOTE: Members who are employed full-time in the National Guard (as defined in Title 32 of the U.S. Code) are not considered in an active duty status, so their pay is not excluded from Iowa tax.

Include all income on line 1 with other W-2, 1099, or W-2G income. Qualifying military income is then deducted on line 24.

Combat zone pay

Income excluded by the federal government is also excluded for Iowa income tax purposes. For example, combat zone pay is excluded on the Iowa return because it is excluded for federal income tax purposes.

The federal Military Family Tax Relief Act of 2003 provides for a number of tax breaks related to military personnel. Iowa follows the federal treatment of the military adjustments to gross income.

The Internal Revenue Service website is your best source of qualifying combat zones and tax breaks related to military personnel.

Operation Iraqi Freedom, Operation New Dawn, Operation Noble Eagle, or Operation Enduring Freedom (701 IAC 40.61)

There is an income tax exemption for active duty pay received from a source other than the federal government by a person in the National Guard or armed forces military reserve for service performed on or after January 1, 2003, pursuant to military orders for Operation Iraqi Freedom, Operation New Dawn, Operation Noble Eagle, or Operation Enduring Freedom. The individual needs only to be called to active duty under the appropriate orders to qualify for the exemption of active duty pay. The individual does not have to be serving overseas to be eligible for the exemption, but can be serving in Iowa or elsewhere in the United States under the appropriate military orders and qualify for the exemption for active duty pay.

Note that prior to tax year 2011, if a person in the National Guard or military reserve was called to active duty pursuant to military orders for an operation or purpose other than the operations specified above, the active duty pay is not exempt from Iowa income tax. (701 IAC 40.61)

Include all income on line 1 with other W-2, 1099, or W-2G income. Qualifying military income is then deducted on line 24. If you file a paper return, include a copy of your orders. If you file electronically, keep a copy of your orders with your tax records in case the Department requests them at a later date.

Persian Gulf Conflict and/or Bosnia-Herzegovina Peacekeeping (701 IAC 40.40, 701 IAC 40.51)

There is an income tax exemption for active-duty pay received from a source other than the federal government by a person in the National Guard or armed forces military reserve for services performed on or after August 2, 1990, pursuant to military orders related to the Persian Gulf Conflict and/or for services performed on or after November 21, 1995, pursuant to military orders related to peacekeeping in Bosnia-Herzegovina.

Military Student Loan Exemption (701 IAC 40.63)

Military student loan repayments included in federal adjusted gross income are exempt from Iowa income tax if the following criteria are met.

This exemption may be taken by persons in the:

- armed forces
- armed forces military reserve
- National Guard

The individual must be on active duty at the time of the loan repayment.

Include the loan repayment amount in line 1 and deduct it in line 24. (701 IAC 40.63)

Exclusion of Distributions from Retirement Plans by National Guard members and members of military reserve forces of the United States (701 IAC 40.58)

If a National Guard member or member of the military reserve is called to active state or federal duty and makes a withdrawal from a qualified retirement account of the member, the amount of the withdrawal is not subject to Iowa income tax or state tax penalty. If this income is reported as taxable pension income on line 9 of the Iowa return, enter that amount on line 24 of the Iowa 1040.

Deferral of Collection of State Income Tax

Please see information on the Servicemembers Civil Relief Act.

Forgiveness of Tax (701 IAC 39.11)

Iowa income tax is forgiven if:

- the person's federal income tax was forgiven because
- the deceased was killed in a combat zone, or
- the taxpayer is missing in action and presumed dead, or
- the deceased was killed outside the United States due to terrorist or military action while he/she was a military or civilian employee of the United States

Single status

Iowa income tax is forgiven for the tax year in which the individual was killed or was missing and presumed dead and for the tax year prior to the year of death.

Married / year of death

If the deceased was married at the time of death, all tax is forgiven for the year of death if the filing status is joint or married filing separately on the combined return for that tax year.

Married / prior year

All tax is forgiven if the deceased was married at the time of death and a joint return or a married filing separate return was filed for the year prior to death. Please note that if the deceased had filed using the married filing separately on the combined return status, only the state income tax attributable to the deceased will be forgiven. Prior-year returns cannot be amended to change the filing status. (701 IAC 39.11)

Return Due Date and Extensions (701 IAC 39.12, 701 IAC 39.14)

The usual filing deadline for Iowa income tax returns is April 30. If 90 percent of the tax due is paid by that time, the deadline is extended to October 31. No extension form is available or required.

Qualifying individuals are granted extensions under certain circumstances for filing returns and for other acts related to the Department. These are listed below.

Who qualifies for an extension?

- Individuals on active duty federal military service in the armed forces, armed forces military reserve, or National Guard who are deployed outside the United States
- A person in the military serving in support of those forces
- A spouse of a person listed above if they file jointly or separately on a combined return
- An eligible individual who was continuously hospitalized because of illness or injury in the combat zone

“ Other acts related to the Department” includes:

- Filing claims for refund for any tax administered by the Department
- Making tax payments other than withholding payments
- Filing appeals on the tax matters
- Filing other tax returns
- Performing other acts described in the Department’s rules

Extension Periods

In general, the additional time period for filing state returns and performing other acts is 180 days.

MILITARY SPOUSES RESIDENCY RELIEF ACT

Year: 2017

The federal Military Spouses Residency Relief Act (MSRRA) allows a military servicemember's spouse to keep a tax domicile throughout the marriage, even if the spouse moves into another state, so long as the spouse moves into the state to be with a servicemember who is in the state because of military orders.

The effective date is taxable years that begin on and after January 1, 2009.

Under the MSRRA, income from services you perform may be excluded from Iowa income tax if:

- your spouse is a member of the armed forces;
- your spouse is present in Iowa in compliance with military orders;
- you are present in Iowa solely to be with your spouse; and
- you and your spouse maintain your domicile in a state other than Iowa.

If you qualify for the MSRRA, income for services you perform while present in Iowa is sourced to your domicile state and not Iowa. Income for services you perform may include wages, salaries, and tips, as well as income from a business reported on a Schedule C. Other income you receive, such as interest and rental income, may be sourced to Iowa to the same extent it would be sourced to Iowa for any other nonresident.

This exclusion from state income tax is broader than the exclusion for service members themselves. Military servicemembers are also entitled to keep their residence under the Servicemembers Civil Relief Act for purposes of determining which state may tax their military pay; however, servicemembers may owe tax in the state where they are

stationed if they have non-military compensation or other income from sources within that state.

So while a state where a military servicemember is stationed may still continue to tax non-military compensation earned by a servicemember in the state, it will not be able to tax the compensation earned by the nonmilitary spouse if that spouse claims another state as their tax residence.

Iowa W-4

The IA W-4 includes information related to this federal law. If you claim this exclusion, check the appropriate box on the IA W-4, enter the state other than Iowa you are claiming as your state of domicile, and attach a copy of your spousal military identification card to the IA W-4 provided to your employer.

Filing Iowa Income Tax Returns

Spouses who qualify to claim this exclusion on their Iowa Income Tax Return should report all-source income on the IA 1040, but show no Iowa wages, salaries, tips, or Schedule C income on the IA 126. Enter the amount of credit from line 33, IA 126, on line 48, IA 1040.

Iowa income tax withheld should be entered on line 66 of the IA 1040; then complete the remainder of the IA 1040 to determine the amount of any refund that may be due.

NONRESIDENTS AND PART-YEAR RESIDENTS

Year: 2017

A nonresident or part-year resident of Iowa must complete the IA 1040 reporting the individual's total income, including income earned outside Iowa. The taxpayer is allowed adjustments to income, a federal tax deduction, and standard or itemized deductions on the same basis as if the taxpayer were a resident of Iowa.

The nonresident or part-year resident then completes a Schedule IA 126. On the IA 126, only Iowa income is reported and a percentage of Iowa income to total income is determined. The taxpayer receives a credit against the initial tax liability based on the percentage of income from outside Iowa. Therefore, the result of this credit is that only Iowa-source income is taxed.

Although non-Iowa income is used to calculate the initial tax liability at the appropriate tax rate, the non-Iowa income itself is not subject to tax. By using this method, Iowa taxes the Iowa-source income of nonresidents and part-year residents at the same rate it taxes Iowa residents. Iowa, like many states and the federal government, uses a graduated tax rate system based on level of income.

A nonresident of Iowa with all-source income of \$250,000 and \$10,000 of Iowa income, will use the same tax rate as an Iowa resident with \$250,000 of income to calculate their initial tax liability, rather than using the same tax rate as an Iowa resident with \$10,000 of total income.

NET OPERATING LOSSES

Year: 2017

Iowa net operating losses may be carried back two years, except for losses incurred in Presidentially-declared disaster areas (3-year carryback) and losses incurred by individuals engaged in farming (5-year carryback). See IA 123 (pdf) for the net operating loss schedule.

See line 24.

NONRESIDENTS WITH GAMBLING WINNINGS

Year: 2017

Complete the IA 1040, showing income from all sources, similar to your federal return.

Show gambling winnings on line 13.

Take eligible gambling losses on [IA Schedule A \(pdf\)](#).
Complete the return through line 47.

Then use the IA 126 (pdf) to determine your credit based upon the percentage of Iowa income to total income.
This credit is taken on line 48.

Include a copy of your federal return.

RECORD KEEPING

Year: 2017

Iowa income tax returns and all supporting documentation, including federal returns and all relevant schedules should be kept for at least 10 years after filing the return.

If you have unreported income or fraudulent filings, the statute of limitations for examination by the Department is unlimited.

REFUNDS MAY BE USED TO PAY DEBT

Year: 2017

The State of Iowa may take refunds to pay certain debts. This process is called offsetting refunds.

Debts that may be offset include:

- taxes owed the State of Iowa
- taxes owed the Internal Revenue Service
- unpaid child support
- overpayment of unemployment
- fines owed to counties
- unpaid college aid loans
- food assistance / SNAP overpayment
- FIP overpayment
- any other debt owed to an Iowa state or municipal agency

Innocent Spouse Relief

If you file a joint return, and there is an amount due, both you and your spouse are totally and equally liable for the entire debt. If you have an outstanding liability, jointly or individually, and you file a return and are due a refund, regardless if there is an existing

arrangement on the account by either party, these funds are still subject to being offset. However, there is a process to follow if you believe your spouse (or former spouse) is responsible for the debt in question.

Iowa follows the Federal IRS determination of innocent spouse relief. You should file IRS Form 8857 as soon as you become aware of a tax liability for which you believe only your spouse or former spouse should be held responsible. If relief is granted, you will be asked to provide your IRS Final Determination letter to request relief from your Iowa tax debt.

By requesting innocent spouse relief, you can be relieved of responsibility for paying tax, interest, and penalties if your spouse (or former spouse) improperly reported items or omitted items on your tax return. Generally, the tax, interest, and penalties that qualify for relief can only be collected from your spouse (or former spouse). However, you are jointly and individually responsible for any tax, interest, and penalties that do not qualify for relief.

Letter Sent to Taxpayer

When a refund is kept by the state to pay debt, a letter is sent to the taxpayer by the agency offsetting the money. For example, when a refund from an individual income tax return is used to pay back child support, the Department of Human Services will send a letter to the taxpayer.

More Than One Debt

A refund or payment may be taken to pay more than one debt; for instance, if a taxpayer owes College Aid money and also has an unpaid county fine. Each offsetting agency has up to 45 days to process their offset.

Remaining Refund

If an entire refund or payment is not needed to pay the debt, the remainder will be sent to the taxpayer. If direct deposit was requested, the remainder will be refunded by direct deposit.

ROUNDING TO WHOLE DOLLARS

Year: 2017

Use whole dollars to complete your return instead of dollars and cents. To round, drop amounts under 50 cents and increase amounts from 50 to 99 cents to the next dollar.

For example, \$129.49 becomes \$129 and \$235.50 becomes \$236.

If you need to add two or more amounts to enter on a line, add them together first, then round.

For example, if you received two W-2 forms, one showing wages of \$5,000.55 and the other for \$18,500.73, add them for a total of \$23,501.28. The amount you enter on line 1 of the IA 1040 would be \$23,501.

SERVICEMEMBERS CIVIL RELIEF ACT

Year: 2017

The Servicemembers Civil Relief Act (SCRA) is a federal law that, among other things, requires Iowa to allow a deferral of *collection* of state income tax if a servicemember's ability to pay is materially affected by their military service. The deferral lasts for only a period of up to 180 days after termination or release from military service. The SCRA only defers *collection* of income tax that has fallen due before or during military service. Servicemembers must still file their income tax returns, unless their duty to file is suspended by another authority.

Do You Qualify?

- 1.) You must be a "servicemember."
 - Members of the Army, Navy, Air Force, Marine Corps, Coast Guard, and commissioned corps of the National Oceanic and Atmospheric Administration and of the Public Health Service are servicemembers.
 - Members of the National Guard and reserves are servicemembers *only if* those members are serving a call to active service authorized by the President or the Secretary of Defense for a period of more than 30 consecutive days.
- 2.) You must serve during a period of "military service."
 - In the case of Army, Navy, Air Force, Marine Corps, or Coast Guard, a servicemember is serving in a period of military service if they are on "active duty."
 - In the case of commissioned officers of the National Oceanic and Atmospheric Administration or Public Health Service, military service requires "active service."
 - In the case of members of the National Guard, military service includes service under a call to active service authorized by the President or the Secretary of Defense for a period of more than 30 consecutive days.
- 3.) You must be "materially affected" by your military service.
 - The Department will consider all relevant facts and circumstances in determining whether servicemembers' ability to pay their income tax has been materially affected by their military service.
- 4.) You must be in "filing compliance."
 - Servicemembers can receive a deferral of collection of income taxes only for periods in which they have filed an income tax return.

5.) You must file a written request for deferral.

- Servicemembers must make a written request for deferral of collection of income to the Department by completing the [Request for Deferral of Iowa Income Tax](#) form.
- Servicemembers must submit a copy of their orders with their Request for Deferral of Iowa Income Tax form.

WHAT TO DO IF YOU DO NOT RECEIVE YOUR W-2

Year: 2017

Each year many Iowans do not get W-2s from their employers by the January 31 date required by the IRS.

If you have moved:

Contact your employer with your new address.

If you simply have not received it:

Contact your employer and try to find out why you have not received the W-2.

If you still do not receive it:

You may also call the IRS at 1-800-829-1040. They will work with you and explain the steps needed to receive a substitute W-2.

Iowa will accept a copy of the substitute W-2 filed with the IRS. However, the substitute W-2 may not show Iowa withholding. No credit for Iowa withholding can be given in this case unless you have pay stubs that show Iowa withholding.

If you need a W-2 from a previous year, here are some other possible options:

- Social Security Administration (SSA) - will provide copies of Forms W-2 for retirement purposes at no charge and for other than retirement purposes for a fee. Call 1-800-772-1213, or visit the SSA web site at www.ssa.gov for instructions on how to obtain wage information from the SSA.
- Internal Revenue Service (IRS) - will provide an exact copy of a previously filed and processed tax return with attachments (including the form W-2). You should complete Form 4506, Request for Copy of Tax Return, and mail it to the address listed in the instructions. A fee will be charged for each tax year requested.
