

IOWA OLD vs. NEW FUSON® STAMP (20 version)

old IOWA FUSON® stamp security features

new IOWA FUSON® stamp security features

Unique stamp identifier: Overt and simple validation. Combined with the roll number, no two stamps will have the same 10 alpha numeric sequence.

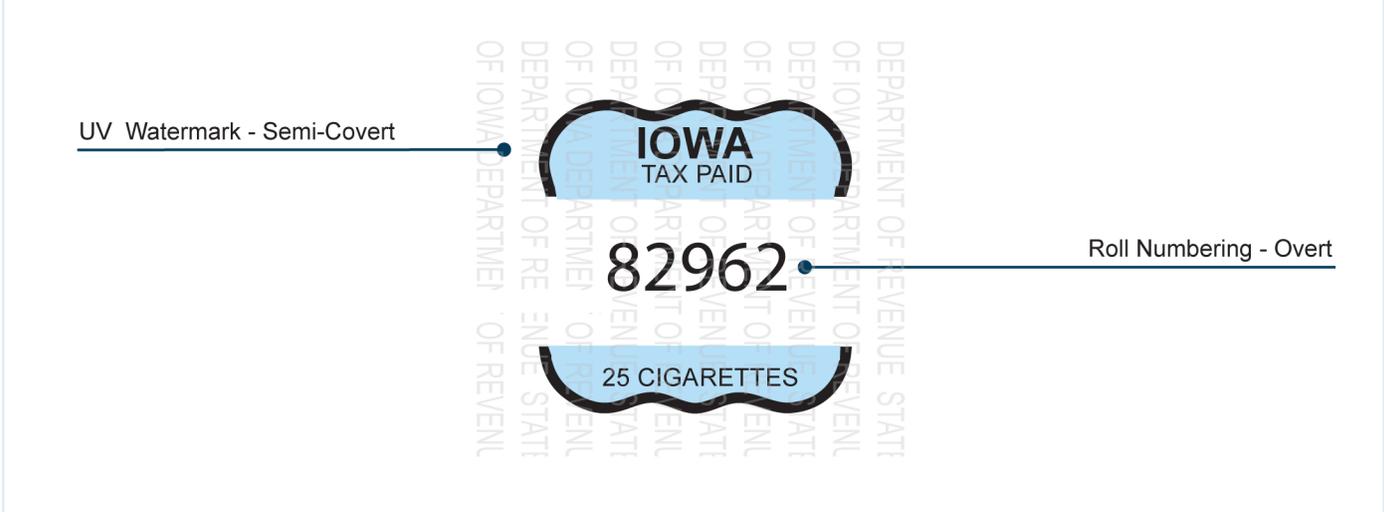

Microprint: Printed text "THE HAWKEYE STATE" is only readable with a magnifying loupe. Please note the intentional reversed "X". If a stamp is found with the microprint letters printed correctly, it may be a counterfeit.

Variable Image: the new five point star variable image will appear and disappear when viewed in different angles.

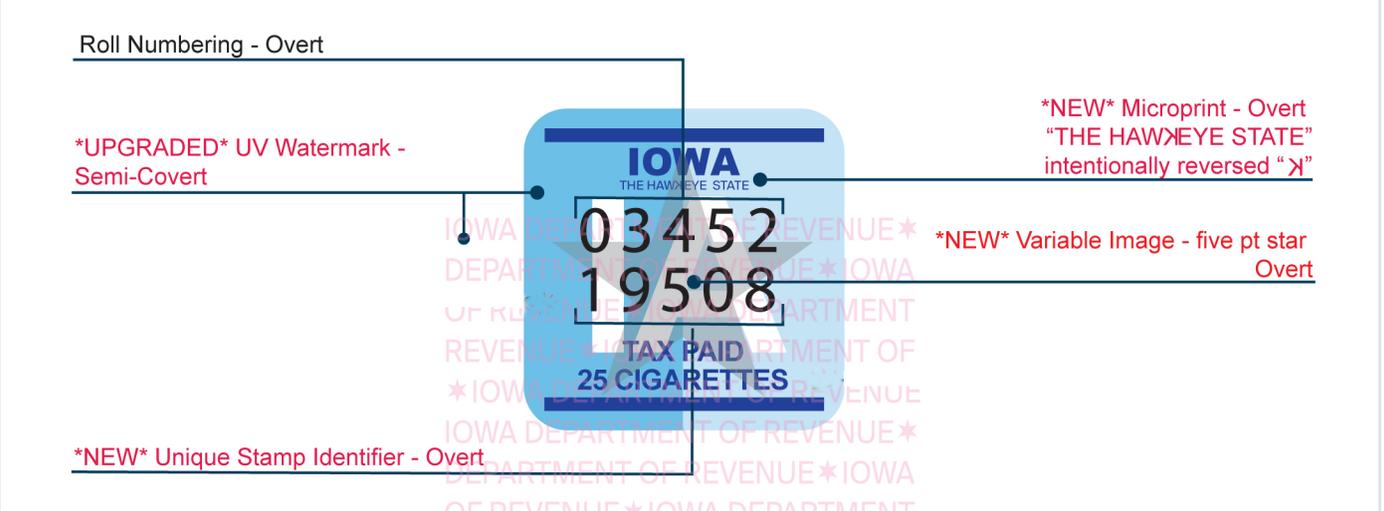

UV Watermark: When exposed to ultraviolet longwave light, the safety tint will fluoresce a pink color and will read "IOWA DEPARTMENT OF REVENUE★"
