

FOR UPLOAD: Instructions for the file layout for Business Property Tax Credit Data Elements File Assessment Year 2015

A web-based application has been developed for the submission of a CSV file with established information parameters in the Final Data Elements File for Upload Template. Please remember that the CSV file **must** be in the order proscribed in the data description file. It is important that the Business Property Tax Credit Unit Application IDs established for each individual parcel are maintained in their format and contained in this file submission. **Variation from this format will cause the upload submission to fail.**

FILE NAME: This file should have a file name that starts with your DOM county code followed by an underscore, the word “dataelementsfile” followed by an underscore and the date the file was generated as MMDDYY. This file name cannot exceed 40 characters. [For example: 01_dataelementsfile_091813] For those counties interested in an xml solution, please contact Susan Chambers at (515) 281-3159. Greyed fields are for future reference and are not required for the 2014 submission.

FOR DOWNLOAD: Instructions for the file layout for Business Property Tax Credit by Parcel File

A web-based application has been developed for the download of a CSV file with established information parameters in the Final Credit by Parcel File for Download Template.

FILE NAME: This file will have a file name that contains your DOM county code followed by an underscore, the phrase “CreditByParcel” followed by an underscore and the date the file was generated as MMDDYY. [For example: 01_CreditByParcel_091813] If you have questions or concerns about this capability, please contact Susan Chambers at (515) 281-3159.

Data Handler Contacts and Other Contacts

It is imperative that each person in your jurisdiction who will upload and download files have his or her own Enterprise A&A Login account.

***PLEASE NOTE:** A valid file consists of all of the fields in the order set forth below, regardless of whether the field is null where permissible.*

Business Property Tax Credit Data Elements File for Upload

Field Order	STATUS from Auditor	FIELD NAME	DESCRIPTION	FORMAT	LENGTH	Validations (Receipt from Auditor)
