

Information about the Print Version of the IA 1040 Return

- Use this form if you would like to enter the amounts on the return by hand.
- You may want to consider using the fillable IA 1040 instead, as it automatically creates a computer generated barcode on the return. The barcode allows the return to process faster than a handwritten paper return.
- Please consider filing electronically and receive your refund in 2 weeks or less!

For taxpayers filing 2013 or 2014 returns for the first time or amending those returns using the IA 1040, rather than the IA 1040X, the out-of-state tax credit calculated on form IA 130 should be entered on line 50 of the IA 1040, rather than on line 57 as shown on the form for those prior years. For tax years 2007 through 2012, the out-of-state tax credit calculated on form IA 130 should be entered on line 53 of the IA 1040, rather than on line 62.
