

## Prior Year Tax Forms

For taxpayers filing 2013 or 2014 returns for the first time or amending those returns using the IA 1040, rather than the IA 1040X, the out-of-state tax credit calculated on form IA 130 should be entered on line 50 of the IA 1040, rather than on line 57 as shown on the form for those prior years. For tax years 2007 through 2012, the out-of-state tax credit calculated on form IA 130 should be entered on line 53 of the IA 1040, rather than on line 62.

Prior year individual income tax forms are available on our [archive forms page](#)
